SUPPLEMENTARY INFORMATION:

Title: 2014 Census of Horticultural Specialties.

OMB Control Number: 0535-0236.

Type of Request: Intent to Seek Reinstatement of an Information Collection.

Abstract: The National Agricultural Statistics Service (NASS) of the United States Department of Agriculture (USDA) will request approval from the Office of Management and Budget (OMB) for the 2014 Census of Horticultural Specialties survey to be conducted as a follow-on survey from the 2012 Census of Agriculture and is authorized by the Food, Conservation, and Energy Act of 2008 (Title X—Horticulture and Organic Agriculture) as amended.

The 2014 Census of Horticultural Specialties will use as a sampling universe; every respondent on the 2012 Census of Agriculture who reported production and sales of \$10,000 or more of horticultural specialty crops, and is still in business in 2014. In addition, NASS also plans to contact all new operations that have begun producing horticultural specialty products since the completion of the 2012 Census of Agriculture. Data collection will begin around January 1, 2015 for production and sales data for 2014. A final report will be published around December 2015. Data will be published at both the U.S. and State levels where possible.

Authority: The census of horticulture is required by law under the "Census of Agriculture Act of 1997," Public Law 105-

113, 7 U.S.C. 2204(g) as amended. These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3501, *et seq.*) and Office of Management and Budget regulations at 5 CFR part 1320.

NASS also complies with OMB Implementation Guidance, "Implementation Guidance for Title V of the E-Government Act, Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA)," **Federal Register**, Vol. 72, No. 115, June 15, 2007, p. 33362. The law guarantees farm operators that their individual information will be kept confidential. NASS uses the information only for statistical purposes and publishes only tabulated total data. These data are used by Congress when developing or changing farm programs. Many national and state programs are designed or allocated based on census data, i.e., soil conservation projects, funds for cooperative extension programs, and research funding. Private industry uses the data to provide more effective production and distribution systems for the agricultural community.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 60 minutes per response.

Respondents: Producers of horticultural specialty crops.

Estimated Number of Respondents: 40,000.

Estimated Total Annual Burden on Respondents: 50,000 hours. NASS will send out a pre-survey letter informing the public of the upcoming survey along with a short explanation of the need for this survey and the potential uses of the published data by data users. We will also provide respondents with instructions on how to access the internet and complete the questionnaire on line. Operators who did not respond by mail or internet will be attempted by either phone or personal interview.

The primary objectives of the National Agricultural Statistics Service are to prepare and issue State and national estimates of crop production, livestock production, economic statistics, and environmental statistics related to agriculture and to conduct the Census of Agriculture and its follow on surveys.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the
