Abstract: Producers of pesticides and pesticide devices must maintain certain records with respect to their operations and make such records available for inspection and copying as specified in Section 8 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and in regulations at 40 CFR Part 169. This information collection is mandatory under FIFRA Section 8. It is used by the Agency to determine compliance with the Act. The information is used by EPA Regional pesticide enforcement and compliance staffs, the Office of Enforcement and Compliance Assurance (OECA), and the Office of Pesticide Programs (OPP) within the Office of Chemical Safety and Pollution Prevention (OCSPP), as well as the U.S. Department of Agriculture (USDA), the Food and Drug Administration (FDA), and other Federal agencies, States under Cooperative Enforcement Agreements, and the public. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Form Numbers: None.

Respondents/affected entities: Producers of pesticides and pesticide devices for sale or distribution in or exported to the United States.

Respondent's obligation to respond: Mandatory (40 CFR part 169).

Estimated number of respondents: 11,600 (total).

Frequency of response: Annual.

Total estimated burden: 23,200.

Total estimated cost: \$1,762,040.

There are no annualized capital or O&M costs associated with this ICR since all equipment associated with this ICR is present as part of ordinary business practices.

Changes in Estimates: There is a decrease of 3,600 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is an adjustment due to a change in the number of respondents since the last ICR.
