

U.S. Bureau of the Census reports that, at the end of 2002, there were 571 U.S. establishments that manufacture audio and visual equipment. These manufacturers already have in place mechanisms for labeling equipment and including consumer disclosures in the form of owners' manuals and brochures in equipment packaging. We estimate that manufacturers who voluntarily decide to label their equipment will need no more than 5 hours to develop a label or to develop wording for a consumer disclosure for owners' manuals/brochures to be included with the device. Once developed, we do not anticipate any ongoing burden associated with the revision/modification of the label, if used, or the disclosure.

*Status Reports*—Periodic reports are required from large cable multiple system operators detailing CableCARD deployment/support for navigation devices. (This requirement is specified in FCC 05–76, CS Docket No. 97–80).
