SUPPLEMENTARY INFORMATION:

Title: Customer Data Worksheet Request for SCIMS Record Changes.

OMB Control Number: 0560-0265.

Type of Request: Extension of a currently approved information collection.

Abstract: The information collection is necessary to effectively monitor critical producer data changes made in the SCIMS at the request of the producer to correct or update their information. The form AD-2047, Customer Data Worksheet Request for SCIMS Record Change, is used to collect information from producers to make changes to their information in SCIMS. The necessity to monitor critical producer data changes in the SCIMS database is a direct result of the OMB Circular A-123 Management's Responsibility for Internal Control, which requires effective internal controls be in place for Federal programs. An FSA team was established and reviewed and documented key controls related to all material producer accounts. FSA also included the analysis on a review of the SCIMS.

Estimated Average Time to Respond: Public reporting burden for collection of this information is estimated to average .17 hours per response. The average travel time, which is included in the total annual burden, is estimated to be 1 hour per respondent.

Type of Respondents: FSA, NRCS, and RD customers currently residing in SCIMS.

Estimated Number of Respondents: 51,750.

Estimated Number of Responses per Respondent: 1.

Estimated Annual Number of Responses: 51,750.

Estimated Total Annual Burden Hours: 8,798.

We are requesting comments on all aspects of this information collection to help us to:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of FSA, including whether the information will have practical utility;

(2) Evaluate the accuracy of FSA's estimate of burden including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice, including name and addresses when provided, will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Signed on March 10, 2014.
