

to develop and sustain a healthy lifestyle to prevent type 2 diabetes or effectively manage diabetes and improve their outcomes; (2) Identify, and share with current and new partner organizations, tools, resources and programs that help improve effectiveness in diabetes management and prevention interventions through clinical care engagements; (3) Identify, and share with current and new partner organizations, tools and resources for community organizations and community leaders seeking to improve health outcomes for people with

diabetes and people at risk for type 2 diabetes where they live, work, play, and worship.

The NDEP evaluation will document the extent to which the NDEP program has been implemented and how successful it has been in meeting program objectives. The evaluation relies heavily on data gathered from existing national surveys such as National Health and Nutrition Examination Survey (NHANES), the National Health Interview Survey (NHIS), the Behavioral Risk Factor Surveillance System (BRFSS), among others for this information. This is a

continued collection of additional primary data from NDEP target audiences on some key process and impact measures that are necessary to effectively evaluate the program. The audiences targeted by the National Diabetes Education Program include people at risk for diabetes, people with diabetes and their families, and the public.

OMB approval is requested for three years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 841.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent and instrument	Estimated number of respondents	Estimated number of responses per respondent	Average time per response (in hours)	Estimated total annual burden hours
Adults—Pretest surveys	25	1	20/60	8
Adults—Surveys	2500	1	20/60	833

Dated: March 12, 2014.
