You may contact the Records Management Division for copies of the proposed collection of information at facsimile number (202) 646–3347 or email address: FEMA-Information-Collections-Management@dhs.gov.

SUPPLEMENTARY INFORMATION: The National Flood Insurance Program (NFIP) codified at 42 U.S.C. 4001, et seq., requires all flood prone communities throughout the country to apply for participation in the NFIP one year after their flood prone identification or submit to the prohibition of certain types of federal and federally-related financial assistance for use in their floodplains. Title 44 Code of Federal Regulations (CFR) section 59.2 authorizes that previously unavailable flood insurance protection to property owners in flood-prone areas is now available, and 44 CFR 59.22 identifies the information that communities are required to submit to FEMA for application into the program. Title 44 CFR section 59.22 and section 59.24 identifies the information a community is required to submit to FEMA for continued participation in the program.

Collection of Information

Title: Application for Participation in the National Flood Insurance Program (NFIP).

Type of Information Collection: Revision of a currently approved information collection.

OMB Number: 1660–0004.

Form Titles and Numbers: FEMA Form 086–0–30, Application for Participation in the National Flood Insurance Program.

Abstract: The National Flood Insurance Program (NFIP) provides flood insurance to the communities that apply for participation and make a commitment to adopt and enforce land use control measures that are to protect development from future flood damages. The application form and supporting documentation will enable FEMA to continue to rapidly process new community applications and to thereby more quickly provide flood insurance protection to the residents in communities.

This collection has been updated to account for the burden hours associated with the community development permit process. To qualify for the NFIP, a participating community must adopt certain minimum standards in accordance with FEMA's regulations at 44 CFR 60.3, 60.4, and 60.5. In order to verify whether communities maintain such standards, the NFIP requires participating communities to retain documentation on development taking place in the flood hazard areas within the community. 44 CFR 59.22. Such information will be made available to FEMA upon request. This information assists FEMA to evaluate the effectiveness of a community's floodplain management program and participating property owners' eligibility for flood insurance. In the past the NFIP application did not account for burden hours associated with this collection of information.

The Application for Participation in the NFIP and the Community Development Permit Process are separate actions documented under the same collection.

Affected Public: State, local or Tribal Government.

Number of Respondents: 20,344.

Number of Responses: 88,306.

Estimated Total Annual Burden Hours: 221,121 hours.
