

Financial Disclosure for Reasonable and Affordable Rehabilitation Payments Form

With the regulations published in the NPRM on July 29, 2013, the form was to be used for all defaulted borrowers who wished to establish a reasonable and affordable monthly rehabilitation repayment amount on a defaulted loan. The initial burden analysis, based on this proposal, resulted in 329,029 respondents requiring 1.5 hours each to complete the form for a total burden estimated at 588,044 hours.

Sections 685.211(f)(5) and 682.405(b)(1)(vii) included in the Department's final regulations published on November 1, 2013, revised the proposal. The final rule now requires only borrowers who object to the monthly rehabilitation payment amount determined using the 15 percent formula described in the final regulations to provide the guaranty agency or the Secretary the information needed to calculate a monthly rehabilitation payment amount by

completing the Financial Disclosure for Reasonable and Affordable Rehabilitation Payments form.

Based on this change, we project that of the estimated 11,144 Direct Loan borrowers and 35,899 FFEL borrowers who object to the calculation using the 15 percent formula in the final regulations, 75 percent or 8,358 Direct Loan and 26,924 FFEL borrowers will complete and return the Financial Disclosure for Reasonable and Affordable Rehabilitation Payments form to the Secretary or guaranty agency. As a result of the restructuring and streamlining of the form, we now anticipate that each borrower will need one hour to read the form and instructions, gather the pertinent documents and complete the form for submission. This will yield 35,282 hours of burden ($8,358 + 26,924 = 35,282 \times 1 \text{ hour} = 35,282$) under OMB Control Number 1845-0120.

We believe this burden estimate is a realistic projection for this new process and form. The Department plans to

monitor the use of the approved Financial Disclosure for Reasonable and Affordable Rehabilitation Payments form and in future information collection submissions be able to provide actual versus projected numbers of submissions (as available), therefore refining future burden estimates.

Consistent with the discussion above, the following chart describes the section of the regulations involving information collections, the information being collected and the collections that the Department has submitted to the Office of Management and Budget for approval and public comment under the Paperwork Reduction Act, and the estimated costs associated with the information collection. The monetized net savings from the reduced burden on guaranty agencies and borrowers using wage data developed using BLS data, available at <http://www.bls.gov/ncs/ect/sp/ecsuhst.pdf> is \$13,603,472 as shown in the chart below. This cost was based on an hourly rate of \$24.61.

Federal Energy Regulatory Commission

[Docket No. CP14-104-000]

Texas Eastern Transmission, LP; Notice of Application

Take notice that on March 11, 2014, Texas Eastern Transmission, LP (Texas Eastern), 5400 Westheimer Court,

Houston, Texas 77056-5310, filed an application in the above referenced docket pursuant to section 7(c) of the Natural Gas Act (NGA) requesting authorization to construct and operate its U2GC Project to provide 425,000 dekatherms per day of pipeline capacity from Appalachian supply sources to an interconnection with the Panhandle Eastern Pipe Line Company, LP's system near Gas City, Indiana. Texas Eastern states the U2GC Project involves minor modifications to existing facilities in Pennsylvania, Ohio, and Indiana to provide for bidirectional flow capabilities. Texas Eastern estimates the cost of the U2GC Project to be \$56.5 million, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call

toll-free, (886) 208-3676 or TYY, (202) 502-8659.

Any questions concerning this application may be directed to Berk Donaldson, Director Rates and Certificates, Texas Eastern Transmission, LP, P.O. Box 1642, Houston, Texas 77251-1642, by telephone at (713) 627-4488, by facsimile at (713) 627-5947, or by email at bdonaldson@spectraenergy.com.

Pursuant to section 157.9 of the Commission's rules (18 CFR 157.9), within 90 days of this Notice, the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit seven copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will

consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and seven copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

[Docket No. EL13-76-000]

AmerenEnergy Resources Generating Company (Complainant) v. Midcontinent Independent System Operator, Inc. (Respondent); Notice of Supplement to Complaint

Take notice that on February 20, 2014, Illinois Power Marketing Company (IPM) and Illinois Power Resources Generating, LLC (IPRG) filed a

supplement to the July 5, 2013 filed complaint (July 5 Complaint) against Midcontinent Independent System Operator, Inc. (MISO), pursuant to sections 206 of the Federal Power Act, 16 U.S.C. 824e and 18 CFR 385.206, regarding the compensation that a System Support Resource unit should be provided under MISO's Tariff, as more fully explained in the supplement to the July 5 Complaint.

IPM and IPRG certify that copies of the supplement were served on MISO and on persons designated for service on the official service list complied in Docket No. EL13-76.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.
