I. Program Description

The NLRC serves as a centralized national legal assistance support system for professionals and advocates working in legal services and aging/disability services networks. The NLRC provides a wide range of resource support to enhance the ability of States, area agencies on aging, and legal providers to deliver high quality/high impact legal assistance to older persons in the most social or economic need. Prior to the creation of the NLRC in 2008, the existing legal assistance support system was comprised of four (4) independent legal resource centers operating within a decentralized and fragmented legal assistance support system. It was determined that the decentralized support system presented various barriers to providing effective resource support to aging/disability and legal networks. Overcoming these barriers necessitated the creation of a more focused and unified resource support delivery structure. The current centralized configuration of the NLRC presents significant advantages in subject matter coverage and overall provider accessibility over the previous decentralized model.

II. Justification for the Exception to Competition

Since 2008, NLRC partners have maximized funding by collaborating in reaching target audiences and providing training, case consultation, and resource materials on a wide range of legal issues. Through collaborations, interlocking work plans, and the leveraging of organizational resources, NLRC partners have achieved national resource support coverage in an increasingly challenging service delivery environment. Those challenges will continue to intensify as priority legal issues such as ACA implementation; housing accessibility, income maintenance, elder abuse/financial abuse prevention; advance directives/person centered planning; and supported decision making alternatives to guardianship continue to demand comprehensive and accessible national legal resource support.

At this stage in the NLRC's programmatic evolution it is important to assess the NLRC's effectiveness in meeting these increasing challenges. To this end, ACL will accomplish two goals this year: (1) Obtain stakeholder input on the resource support needs of legal

and aging/disability service providers and the ability to meet those needs in the current NLRC configuration; and (2) establish how best to incorporate the current work under the NLRC with the intensified ACL activities anticipated in FY 15 in elder rights and elder abuse prevention.

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Administration for Community Living****Technical Assistance: Senior Legal Helplines and Model Approaches to Statewide Legal Assistance Systems**

SUMMARY: The Administration for Community Living (ACL) is announcing the application deadline and a single case deviation from maximum competition for Technical Assistance (TA) grants providing support to *Senior Legal Helplines (SLH)* and *Model Approaches to Statewide Legal Assistance Systems (Model Approaches)* projects under Section 420(a)(2) of the Older Americans Act (OAA). The two (2) TA grants provide focused resource support specifically to SLHs and Model Approaches demonstration projects involved in improving the quality, cost effectiveness, and accessibility of legal assistance and elder rights protections provided to older people. The purpose of this deviation is to award a 4th year non-competing continuation to TA grants, with a three (3) year budget period set to expire May 31, 2014, so that: (1) Stakeholder input can be obtained on the resource support needs of legal and aging/disability service providers across the country; and (2) the current focus of the TA grants can be better directed to support and advance ACL activities anticipated in FY15 in the area of elder rights and elder abuse prevention.

I. Program Description

Technical Assistance (TA) grants directed towards legal systems

development efforts provide tailored resource support to *Senior Legal Helplines* (SLH) and *Model Approaches to Statewide Legal Assistance Systems* (Model Approaches) projects across the country. Model Approaches grants promote the creation of legal services delivery systems that incorporate SLHs (and other low-cost service delivery mechanisms) into the broader tapestry of Title III-B legal services, and other available legal resources. Specifically, the TA grant directed to SLHs provides resource support for various aspects of helpline legal service delivery, including the development of reporting/data collection systems, case management systems, targeting and outreach strategies, and integration strategies that incorporate SLHs into the broader tapestry of legal service delivery in each Model Approaches state. The TA grant directed to the systems enhancement objectives of Model Approaches Phase I and Phase II projects provides resource support on the development of needs and capacity assessments, reporting/data collection systems and outcomes measures used to determine the impact of legal services, and the development of legal service delivery standards/guidelines that promote quality and consistent statewide legal service delivery.

II. Justification for The Exception to Competition

As with the grants comprising the National Legal Resource Center, it is important to assess the effectiveness of TA grants in helping states meet increasing challenges in the development and maintenance of “high capacity” statewide legal service delivery systems. To this end, ACL would like to accomplish two goals this year: (1) Obtain stakeholder input on the resource support needs of legal and aging/disability service providers across the country and the ability to meet those needs through focused TA grants; and (2) establish how best to direct the current objectives of the TA grants towards advancing anticipated ACL FY 15 activities related to elder rights and elder abuse prevention.

III. Eligible Applicants

Incumbent TA grantees with award expiration dates of 5/31/14.
