SUPPLEMENTARY INFORMATION:**Public Comments**

We will accept written comments and information during this reopened comment period on our proposal to list the rufa red knot as a threatened species

that was published in the **Federal Register** on September 30, 2013 (78 FR 60024). We will consider information we receive from all interested parties. We intend that any final action resulting from this proposal will be based on the best scientific and commercial data available and be as accurate and as effective as possible.

If you submitted comments or information on the proposed rule (78 FR 60024) during the initial comment period from September 30, 2013, to November 29, 2013, please do not resubmit them. We have incorporated them into the public record as part of the previous comment period, and we will fully consider them in the preparation of our final determination.

If you submit a comment via <http://www.regulations.gov>, your entire comment—including any personal identifying information—will be posted on the Web site. We will post all hardcopy comments on <http://www.regulations.gov> as well. If you submit a hardcopy comment that includes personal identifying information, you may request at the top of your document that we withhold this information from public review. However, we cannot guarantee that we will be able to do so.

Comments and materials we receive, as well as supporting documentation we used in preparing the proposed rule, are available for public inspection on <http://www.regulations.gov> at Docket No. FWS-R5-ES-2013-0097, or by appointment, during normal business hours, at the U.S. Fish and Wildlife Service, New Jersey Ecological Services Field Office (see **FOR FURTHER INFORMATION CONTACT**).

Background

In our September 30, 2013, proposed rule (78 FR 60024), we proposed to list the rufa red knot as threatened due to loss of both breeding and nonbreeding habitat; potential for disruption of natural predator cycles on the breeding grounds; reduced prey availability throughout the nonbreeding range; and increasing frequency and severity of asynchronies (“mismatches”) in the timing of the birds’ annual migratory cycle relative to favorable food and weather conditions.

For more information on previous Federal actions concerning the rufa red knot, or information regarding its biology, status, distribution, and habitat, refer to the proposed rule published in the **Federal Register** on September 30, 2013 (78 FR 60024) and its four supplemental documents, all of which are available online at <http://www.regulations.gov> at Docket No.

FWS-R5-ES-2013-0097 or by mail from the New Jersey Ecological Services Field Office (see **FOR FURTHER INFORMATION CONTACT**).

Atlantic Highly Migratory Species; 2014 Atlantic Bluefin Tuna Quota Specifications

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments; notice of public hearing.

SUMMARY: NMFS proposes 2014 quota specifications for the Atlantic bluefin tuna (BFT) fisheries and seeks comments from the public on the allocation of available underharvest among the fishing categories under certain circumstances. This action is necessary to implement binding recommendations of the International Commission for the Conservation of Atlantic Tunas (ICCAT), as required by the Atlantic Tunas Convention Act (ATCA), and to achieve domestic management objectives under the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act).

DATES: Written comments must be received on or before May 5, 2014. NMFS will host an operator-assisted public hearing conference call and webinar on April 16, 2014, from 2 to 4 p.m. EDT, providing an opportunity for individuals from all geographic areas to

participate. See **SUPPLEMENTARY INFORMATION** for further details.

SUPPLEMENTARY INFORMATION: Atlantic bluefin tuna, bigeye tuna, albacore tuna, yellowfin tuna, and skipjack tuna (hereafter referred to as “Atlantic tunas”) are managed under the dual authority of the Magnuson-Stevens Act and ATCA. As an active member of ICCAT, the United States implements binding ICCAT recommendations. ATCA authorizes the Secretary of Commerce (Secretary) to promulgate regulations, as may be necessary and appropriate to carry out ICCAT recommendations. The authority to issue regulations under the Magnuson-Stevens Act and ATCA has been delegated from the Secretary to the Assistant Administrator for Fisheries, NMFS.

Background

On May 28, 1999, NMFS published in the **Federal Register** (64 FR 29090) final regulations, effective July 1, 1999, implementing the Fishery Management Plan for Atlantic Tunas, Swordfish, and Sharks (1999 FMP). The 1999 FMP included a framework process to promulgate annual specifications for the BFT fishery, in accordance with ATCA and the Magnuson-Stevens Act, and to implement the annual recommendations of ICCAT. Since 1982, ICCAT has recommended a Total Allowable Catch (TAC) of western Atlantic BFT, and since 1991 ICCAT has recommended specific limits (quotas) for the United States and other Contracting Parties with BFT fisheries.

On October 2, 2006, NMFS published a final rule in the **Federal Register** (71 FR 58058), effective November 1, 2006, implementing the 2006 Consolidated Atlantic Highly Migratory Species Fishery Management Plan (Consolidated HMS FMP), which consolidated management of all Atlantic HMS (i.e., sharks, swordfish, tunas, and billfish) into one comprehensive FMP. The implementing regulations for Atlantic HMS are at 50 CFR part 635. Among other things, the 2006 Consolidated HMS FMP maintained an allocation scheme, established in the 1999 FMP, for dividing the baseline annual U.S. BFT quota among several domestic quota categories based on gear type (i.e., Harpoon, Purse Seine, Angling, General, Longline, and Trap categories).

The baseline quota has remained unchanged from 2013, and the 2014 BFT quota specifications are necessary to adjust the annual U.S. baseline BFT quota to account for any underharvest or overharvest of the adjusted 2013 U.S. BFT quota. Preliminary information
