**BILLING CODE 6450-01-P**

**DEPARTMENT OF ENERGY**

**Update on Reimbursement for Costs of Remedial Action at Uranium and Thorium Processing Sites**

**AGENCY:** Department of Energy.

**ACTION:** Notice of the Title X claims during fiscal year (FY) 2014.

**SUMMARY:** In light of the passage of the Consolidated Appropriations Act, 2014 (Pub. L. 113-76), funds were not made available in FY 2014 to the Department of Energy (DOE) for reimbursement for cleanup work performed by licensees at eligible uranium and thorium processing sites in accordance with Title X of the Energy Policy Act of 1992 (Pub. L. 102-486). However, licensees may submit their claims for cleanup work with the understanding that DOE may be able to perform audits/financial review on the claims but cannot provide licensees with reimbursements. If licensees do not submit claims in FY 2014, they can do so the following year. In order to keep an accurate account of claims, DOE will continue to provide an annual status report or report letter on reimbursements to licensees of eligible uranium and thorium processing sites. If licensees submit claims in FY 2014, those licensees are not required to resubmit those same claims in later years.

**DATES:** If claims are submitted during FY 2014 for cleanup work, the closing date is September 30, 2014.

**ADDRESSES:** Claims should be forwarded by certified or registered mail, return receipt requested, to U.S. Department of Energy, Office of Legacy Management, Attn: David Shafer, Title X Coordinator, 2597 Legacy Way, Grand Junction, Colorado 81503. Two copies of the claim should be included with each submission.

**FOR FURTHER INFORMATION CONTACT:** Contact Theresa Kliczewski at (202) 586-3301 of the U.S. Department of Energy, Office of Environmental Management, Office of Disposition Planning & Policy.

**SUPPLEMENTARY INFORMATION:** DOE published a final rule under 10 CFR part 765 in the *Federal Register* on May 23, 1994, (59 FR 26714) to carry out the requirements of Title X of the Energy

Policy Act of 1992 (sections 1001-1004 of Public Law 102-486, 42 U.S.C. 2296a *et seq.*) and to establish the procedures for eligible licensees to submit claims for reimbursement. DOE amended the final rule on June 3, 2003, (68 FR 32955) to adopt several technical and administrative amendments (e.g., statutory increases in the reimbursement ceilings). Title X requires DOE to reimburse eligible uranium and thorium licensees for certain costs of decontamination, decommissioning, reclamation, and other remedial action incurred by licensees at uranium and thorium processing sites to remediate byproduct material generated as an incident of sales to the United States Government. To be reimbursable, costs of remedial action must be for work which is necessary to comply with applicable requirements of the Uranium Mill Tailings Radiation Control Act of 1978 (42 U.S.C. 7901 *et seq.*) or, where appropriate, with requirements established by a State pursuant to a discontinuance agreement under section 274 of the Atomic Energy Act of 1954 (42 U.S.C. 2021). Claims for reimbursement must be supported by reasonable documentation as determined by DOE in accordance with 10 CFR part 765. Funds for reimbursement will be provided from the Uranium Enrichment Decontamination and Decommissioning Fund established at the Department of Treasury pursuant to section 1801 of the Atomic Energy Act of 1954 (42 U.S.C. 2297g). Payment or obligation of funds shall be subject to the requirements of the Anti-Deficiency Act (31 U.S.C. 1341).

**Authority:** Section 1001-1004 of Public Law 102-486, 106 Stat. 2776 (42 U.S.C. 2296a *et seq.*).

Issued in Washington, DC, on March 28, 2014.

**[Docket No. CP14-123-000]**

**Questar Overthrust Pipeline Company; Notice of Application**

Take notice that on March 26, 2014, Questar Overthrust Pipeline Company (Overthrust), 333 South State Street, Salt

Lake City, Utah 84111, filed an application in the above referenced docket pursuant to section 7(c) of the Natural Gas Act (NGA) requesting authorization to construct and operate its Jurisdictional Tap Line (JTL) 139 Delivery Project to provide 20,000 dekatherms per day (Dth/day) of natural gas to Simplot Phosphates, LLC's new ammonia plant located in Sweetwater County, Wyoming, with the capability of increasing up to 60,000 Dth/day. Overthrust states that the JTL 139 Delivery Project will include approximately 2.5 miles of 8-inch diameter delivery lateral, a district regulator station, and associated appurtenances. Overthrust estimates the Project to be \$4.4 million, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or call toll-free, (886) 208-3676 or TTY, (202) 502-8659.

Any questions concerning this application may be directed to L. Bradley Burton, General Manager Federal Regulatory Affairs and FERC Compliance Officer, Questar Pipeline Company, 333 South State Street, PO Box 45360, Salt Lake City, Utah 84145-0360, by telephone at (801) 324-2459, or by email at [brad.burton@questar.com](mailto:brad.burton@questar.com).

Pursuant to section 157.9 of the Commission's rules (18 CFR 157.9), within 90 days of this Notice, the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to
