SUPPLEMENTARY INFORMATION: The City of Portland has requested that the upper deck of the Steel Bridge remain closed and need not open for vessel traffic in order to facilitate safe efficient movement of event participants in the Race for the Roses event. The Steel Bridge crosses the Willamette River at mile 12.1 and is a double-deck lift bridge with a lower lift deck and an upper lift deck which operate independent of each other. When both decks are in the down position the bridge provides 26 feet of vertical clearance above Columbia River Datum 0.0. When the lower deck is in the up position the bridge provides 71 feet of vertical clearance above Columbia River Datum 0.0. This deviation does not affect the operating schedule of the lower deck which opens on signal. Under normal conditions the upper deck of the Steel Bridge operates in accordance with 33 CFR 117.897(c)(3)(ii), which states that from 8 a.m. to 5 p.m. Monday through Friday one hour advance notice shall be given for draw openings and at all other times two hours advance notice shall be given to obtain an opening. In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R05-OAR-2014-0117; FRL-9907-50-Region 5]

Approval and Promulgation of Air Quality Implementation Plans; Illinois; 10-Year FESOP Amendments

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving Illinois' rule revision to extend the term for an initial permit or renewal of a Federally Enforceable State Operating Permit (FESOP) from five years to ten years. Illinois submitted this rule revision for approval on January 9, 2014. FESOPs apply to non-major sources that obtain enforceable limits to avoid being subject to certain Clean Air Act (Act) requirements, including the Title V operating permit program. This revision meets the Federal requirements found in the June 28, 1989, rule addressing Federal enforceability of FESOPs. This rule revision is expected to reduce the administrative costs of the permitting process for both the affected sources and the Illinois Environmental Protection Agency (IEPA). It will also allow IEPA to devote more resources to major source Title V permitting actions and permit modifications for both Title V and FESOP sources.

DATES: This direct final rule is effective June 6, 2014, unless EPA receives adverse comments by May 7, 2014. If adverse comments are received, EPA will publish a timely withdrawal of the direct final rule in the **Federal Register** informing the public that the rule will not take effect.
