SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and

Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data/Assessment Workshop; and (2) a series of webinars. The product of the Data/Assessment Workshop is a report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses; and describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in the Assessment Process webinars are as follows:

1. Using datasets and initial assessment analysis recommended from the Assessment Workshop, panelists will employ assessment models to evaluate stock status, estimate population benchmarks and management criteria, and project future conditions.

2. Panelists will recommend the most appropriate methods and configurations for determining stock status and estimating population parameters.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Title of Collection: Study of Enhanced College Advising in Upward Bound.

OMB Control Number: 1850-NEW.

Type of Review: A new information collection.

Respondents/Affected Public: Individuals or households.

Total Estimated Number of Annual Responses: 4,200.

Total Estimated Number of Annual Burden Hours: 1,400.

Abstract: The Study of Enhanced College Advising in Upward Bound will test the effectiveness of providing

Upward Bound projects with a professional development package and tools to provide semi-customized college advising to students participating in Upward Bound. Upward Bound projects will be invited to volunteer for the demonstration, and the first 200 projects to volunteer for the demonstration will be included. Volunteer projects will be randomly assigned so that half receive the staff training, materials, tools, and resources in the first wave (spring, summer, fall 2015), and the other half will receive the staff training, materials, tools, and resources in the second wave (summer and fall 2016). The study will follow students who participate in both groups of projects as 11th graders in the 2014-2015 school year. The study will examine the impact of the demonstration on key outcomes including college application behavior, college acceptance and matriculation, and receipt of financial aid. This first of two ICRs for the study requests approval for the overall evaluation design, to collect 11th grade student rosters at each participating project in order to define the evaluation sample, and to administer the student baseline survey. A later ICR will request approval for other data collection, including a Project Director survey and a follow-up student survey.
