

and notified stakeholders via email on March 27, 2014. EPA also added these two sets of data to the docket on March 14, 2014 and with this notice, respectively. Given that EPA has already made these data available through other means, including direct notice to stakeholders, EPA believes that 15 days is an adequate period for public comment on this notice.

In preparing its proposed rule, EPA considered the annual trend of HCFC-22 inventory amounts, and the existing inventory at the end of 2012. Existing HCFC-22 inventory can be used to meet a portion of servicing demand, thus enabling the agency to issue fewer HCFC-22 consumption allowances and prevent additional emissions of ozone-depleting HCFC-22. As noted in the proposed rule, the inventory data collected through EPA's August 2013 letters indicated that HCFC-22 inventory was higher than the agency's previous estimate of 22,700 to 45,400 MT. EPA also noted that several stakeholders expected inventory to rise in 2013 and 2014. While the nine entities do not hold the complete inventory of HCFC-22, discussions with stakeholders both before and after the rule was proposed indicate that the aggregate inventory from these nine entities likely constitutes a significant majority of the HCFC-22 in inventory on the specified dates.

The agency is also announcing revisions to the *2013 Servicing Tail Report*, also available in the docket. These changes revise statements regarding alternatives to HCFC-123 for fire suppression and modeled need for virgin HCFC-123 for this purpose.

EXPORT-IMPORT BANK OF THE UNITED STATES

[Public Notice 2013-3002]

Agency Information Collection Activities: Comment Request

AGENCY: Export-Import Bank of the United States.

ACTION: Submission for OMB review and comments request.

Form Title: EIB 10-04 Notice of Claim and Proof of Loss, Working Capital Guarantee.

SUMMARY: The Export-Import Bank of the United States (Ex-Im Bank), as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal Agencies to comment on the proposed information collection, as required by the Paperwork Reduction Act of 1995.

By neutralizing the effect of export credit support offered by foreign governments and by absorbing credit risks that the private sector will not accept, Ex-Im Bank enables U.S. exporters to compete fairly in foreign markets on the basis of price and product. Under the Working Capital Guarantee Program, Ex-Im Bank provides repayment guarantees to lenders on secured, short-term working capital loans made to qualified exporters. The guarantee may be approved for a single loan or a revolving line of credit. In the event that a borrower defaults on a transaction guaranteed by Ex-Im Bank the guaranteed lender may seek payment by the submission of a claim.

This collection of information is necessary, pursuant to 12 USC Sec. 635 (a) (1), to determine eligibility of the export sales for insurance coverage. The Report of Premiums Payable for Financial Institutions Only is used to determine the eligibility of the shipment(s) and to calculate the premium due to Ex-Im Bank for its support of the shipment(s) under its insurance program. Export-Import Bank customers will be able to submit this form on paper or electronically.

The Export-Import Bank has made a change to the report to have the insured financial institution provide the industry code (NAICS) associated with each specific export. The insured financial institution already provides a short description of the goods and/or services being exported. This additional piece of information will allow Ex-Im Bank to better track what exports it is covering with its insurance policy.
