SUPPLEMENTARY INFORMATION: The DOL seeks to extend PRA authorization for the Application for Waiver of Surface Sanitary Facilities Requirements specified in regulations 30 CFR 71.403, 71.404, 75.1712–4, and 75.1712–5. MSHA regulations require a covered coal mine operator to provide bathing facilities, clothing change rooms, and sanitary flush toilet facilities in a location that is convenient for use of the miners. *See* CFR 71.400 through 71.402 and 75.1712–1 through .1712–3. The regulations allow an operator that is unable to meet any or all of the requirements to apply for a waiver. *See* 30 CFR 71.403, 71.404, 75.1712–4, and 75.1712–5. The coal mine operator files the application with the MSHA District Manager for the district in which the mine is located. The application must contain the name and address of the mine operator, name and location of the mine, and a detailed statement of the grounds on which the waiver is requested. At the same time the application is sent to the MSHA District Manager, the operator must forward a copy to the appropriate Regional Program Director, National Institute for Occupational Safety and Health, and a post copy showing the addresses of the appropriate District Manager and Regional Program Director for at least thirty (30) days on the mine bulletin board.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. *See* 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1219–0024.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on June 30, 2014. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on December 27, 2013 (78 FR 79008).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within 30 days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1219–0024. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
