

seismic survey in federal waters approximately 25 to 85 kilometers (km) (15.5 to 52.8 miles (mi)) off the New Jersey coast. NMFS does not have the authority under Section 101(a)(5)(D) of the MMPA to permit, authorize, or prohibit the Lamont Doherty Earth Observatory's seismic survey activities.

On March 25, 2004, Clean Ocean Action, based in New Jersey, requested an extension of the public comment period to aid in their review of the proposed Authorization. NMFS has considered the request and will extend the comment period to May 16, 2014. This extension provides a total of 60 days for public input and continuing Federal agency reviews to inform NMFS' final decision to issue or deny the Authorization. NMFS does not anticipate that this 30-day extension will delay its decision on whether to issue or deny the Authorization.

NMFS refers the reader to the March 17, 2014, notice of proposed Authorization (79 FR 14779, March 17, 2014) for background information concerning the proposed Authorization as this notice does not repeat the information here. For additional information about the Lamont Doherty Earth Observatory's request and the National Science Foundation's environmental analyses, please visit the Web site at: <http://www.nmfs.noaa.gov/pr/permits/incidental.htm#applications>.
