Farm Service Agency

Title: Disaster Assistance—General (7 CFR part 1945–A)

Omb Control Number: 0560–0170

Summary of Collection: The regulation at 7 CFR 1945–A, defines the responsibilities of the Secretary of Agriculture in making disaster area determinations, the types of incidents that can result in a disaster area determination, and the factors used in making disaster area determinations. The determination of a disaster area is prerequisite to authorizing emergency (EM) loans to qualified farmers as outlined in 7 CFR part 764. EM loan funds may be used to restore or replace essential property, pay all or part of production costs incurred by the farmer or rancher in the year of the disaster, pay for essential family living expenses, pay to reorganize the farming operation or refinance USDA and non-USDA creditors. The information collection occurs when the Secretary receives a letter from the Governor requesting a Secretarial natural disaster determination. Supporting documentation of losses for all counties having disaster is provided by the County Emergency Boards in the form of a report entitled “Loss Assessment Report” (LAR).

Need and Use of the Information: The Farm Service Agency will collect the following information to determine if the county is eligible to qualify for a natural disaster designation: (1) The nature and extent of production losses; (2) the number of farmers who have sustained qualifying production losses; and (3) the number of farmers that have sustained qualifying production losses that other lenders in the county have indicated that they will not be in a position to finance. The information will be used by FSA to process State Governor requests for Secretarial natural disaster designations.

Description of Respondents: State, Local or Tribal Government.

Number of Respondents: 907.

Frequency of Responses: Reporting; On occasion; Annually.
