

Solicitation of Information About Prospective Vessels Entering the WCPO Purse Seine Fishery

The paragraph 50 allowance enables purse seine vessels to be replaced with vessels having greater carrying capacity and well volume and for the replacement vessels to make greater catches and exert greater fishing effort than the replaced vessels provided certain criteria are met. In order for the United States to comply with the paragraph 50 allowance, NMFS must be informed of any plan or intent to bring U.S. vessels into the WCPO purse seine fishery. CMM 2013–01 requires that “building approval” for the replacement vessel must have been granted before March 1, 2014, and the Commission must have been notified of such approval before March 1, 2014, for such replacement. Although this date has passed, we have notified the Commission that the agency is required to follow administrative rulemaking requirements, and it was not possible for us to solicit and evaluate information from the public within the extremely short deadlines under CMM 2013–01. Accordingly, NMFS will seek public input on the paragraph 50 allowance notwithstanding the passage of the Commission’s deadline.

NMFS invites any individual or company that plans or intends to seek authorization for a purse seine vessel more than 24 meters in length with freezing capacity to participate in the WCPO purse seine fishery (and that is not currently authorized to participate in the fishery) to notify NMFS of such plan or intent by providing the information listed below. “To participate in the WCPO purse seine fishery” means to use a U.S.-flagged purse seine vessel to fish in the Convention Area, regardless of the vessel’s carrying capacity, well volume, or other characteristics. Specifically, NMFS requests that the following information be submitted to the NMFS Pacific Islands Regional Administrator (see **ADDRESSES**): (1) Whether the vessel is already built, under construction, or not yet under construction; (2) if not yet under construction, whether an agreement has been reached with a builder concerning its construction, and if so, the date of the agreement; (3) the name of the vessel, if known; (4) the U.S. Coast Guard Certificate of Documentation number of the vessel, if assigned; (5) the international radio call sign of the vessel, if assigned; (6) the vessel’s length, if known; (7) the approximate date of fishing authorization that will be sought, if known; (8) the name and contact

information of the individual or company most likely to seek authorization for the vessel to participate in the WCPO purse seine fishery; and (9) the name(s) of the currently authorized purse seine vessel(s) that that person or company intends to remove from the WCPO purse seine fishery coincident with the entry of the subject vessel, if any.

NMFS intends to use the information collected to identify prospective WCPO purse seine fishing vessels, and to determine whether any such vessel would replace one or more vessels currently authorized to participate in the WCPO purse seine fishery. Information provided in response to this request will be used only for making determinations related to the paragraph 50 allowance.

Failure to respond to this notice of solicitation of information could affect future eligibility of replacement vessels to compete for licenses and other authorizations to participate in the WCPO purse seine fishery. Responses for a plan or intent for a prospective purse seine vessel must be submitted in writing by May 12, 2014. Information submitted in response to this notice will, as appropriate, be subject to the confidentiality provisions of the WCPFC Implementation Act, section 506(d), and implementing regulations.

This request for information is subject to the Paperwork Reduction Act. It is part of a collection-of-information that has been approved by the Office of Management and Budget (OMB) under control number 0648–0218, “South Pacific Tuna Act.” A change to that collection-of-information to accommodate this request for information has been approved by the OMB.

Comments

A 60-day Notice requesting public comment was published in the **Federal Register** on December 12, 2013. This comment period ended February 9, 2014. Four public comments were received from this Notice. One commenter stated that the forms may be difficult to interpret by individuals with cognitive disabilities. All members

completing the forms may do so with assistance of the programs with which they are serving, therefore we have not made changes. Multiple commenters stated that the disability information may be too detailed or intrusive. We have included language that speaks to the protections of the data, and feel that this type of information will allow us to ensure that we are serving all Americans equally. Other commenters provided a number of requests for clarification of the meaning of certain questions. We have clarified many of these questions on the forms. Multiple commenters requested that the forms state that they may be filled out on paper or electronically, and we have added a clarifying statement saying this.
