BILLING CODE 6353-01-P

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

Notice of Intent To Prepare an Environmental Impact Statement and Conduct Scoping Meeting for the Berths 121–131 [Yang Ming] Container Terminal Redevelopment Project at the Port of Los Angeles, City and County of Los Angeles, California (SPL–2013–00810–TS).

AGENCY: U.S. Army Corps of Engineers, DOD.

ACTION: Notice of intent.

SUMMARY: The purpose of this notice is to initiate a 45-day scoping process for preparation of an Environmental Impact Statement (EIS) for the Los Angeles Harbor Department (LAHD) Berths 121–131 [Yang Ming] Container Terminal Redevelopment Project.

DATES: Submit comments concerning this notice on or before May 25, 2014. A public scoping meeting will be held on May 8, 2014 at 6:00 p.m. (PST).

ADDRESSES: The scoping meeting location is: Los Angeles Harbor Department, Board of Harbor Commissioners Hearing Room, 425 S. Palos Verdes Street, San Pedro, CA 90731.

Mail written comments concerning this notice to: U.S. Army Corps of

Engineers, Los Angeles District, Regulatory Division, Ventura Field Office, ATTN: SPL–2013–00810–TS, 2151 Alessandro Drive, Suite 110, Ventura, CA 93001. Comment letters should include the commenter's physical mailing address, the project title and the Corps file number in the subject line.

FOR FURTHER INFORMATION CONTACT:

Theresa Stevens, Ph.D., U.S. Army Corps of Engineers, Los Angeles District, Regulatory Division, Ventura Field Office, ATTN: SPL–2013–00810–TS, 2151 Alessandro Drive, Suite 110, Ventura, CA 93001, (805) 585–2146, theresa.stevens@usace.army.mil.

SUPPLEMENTARY INFORMATION:

In accordance with the National Environmental Policy Act (NEPA), the Corps is requiring the preparation of an Environmental Impact Statement (EIS) prior to any permit action. The Corps may ultimately make a determination to permit or deny the proposed project or a modified version of the proposed project. The primary Federal concerns are dredging, dredged material disposal, addition of permanent structures in and over navigable waters of the U.S., and transport of dredged material for the purpose of ocean disposal.

Pursuant to the California Environmental Quality Act (CEQA) the LAHD will serve as Lead Agency in preparing an Environmental Impact Report (EIR) for its consideration of development approvals within its jurisdiction. The Corps and LAHD have agreed to jointly prepare a Draft EIS/EIR to optimize efficiency and avoid duplication. The Draft EIS/EIR is intended to be sufficient in scope to address the Federal, state and local requirements and environmental issues concerning the proposed activities and permit approvals.

Authority: 33 U.S.C. 403; 33 U.S.C. 1344; 33 U.S.C. 1413.

1. **Project Site and Background Information.** The project site is located in the West Basin area of the Port of Los Angeles. The site is within the Port of Los Angeles Community Plan area in the City and County of Los Angeles, adjacent to the communities of San Pedro and Wilmington, and approximately 20 miles south of downtown Los Angeles. The purpose of the project is to improve marine shipping and maritime commerce to optimize the container-handling efficiency and capacity at Berths 121–131, and to accommodate berthing and servicing of the largest container ships that may call at the Port of Los Angeles. The existing 186-acre terminal is

operated by Yang Ming, Inc. under a lease agreement (LAHD Permit No. 787).

2. **Proposed Action.** The LAHD has proposed to redevelop the existing container terminal in two phases and the following actions require a Department of the Army permit. Phase 1 would take place at Berths 126–129 and would include: Demolition and reconstruction of 1,260 linear feet of concrete wharf and supporting rock dike; 10 new 100–120-foot gantry cranes (this measurement represents the spread of the crane leg supports); dredging of approximately 400,000 cubic yards (cy) of sediment. Phase 2 would take place at Berths 121–126 and would include: Demolition and reconstruction of 1,400 linear feet of concrete wharf and supporting rock dike; 10 new 100–120-foot gantry cranes; cut 3.7 acres of land and backfill 2.1 acres of waters of the United States for wharf realignment and angle point transition; dredging of approximately 500,000 cy of sediment. The depth of the proposed dredging areas would increase from –45 feet to –53 feet mean lower low water (MLLW) with an overdredge allowance of two feet, for a total depth of –55 feet MLLW. Dredged material would be beneficially reused, disposed at the Berths 243–245 confined disposal facility (CDF), or the LA–2 ocean disposal site. Construction activities for Phase 1 are scheduled to begin in 2016, would take approximately 24 months to complete and may be phased to maintain terminal operations during construction. Construction activities for Phase 2 have not been scheduled. Addition or expansion of backland facilities, such as on-dock rail, does not require a Corps permit; however all indirect and cumulative impacts associated with the proposed project will be evaluated in the EIS/EIR in accordance with NEPA.

3. **Issues:** Potentially significant impacts associated with the proposed project may include: Aesthetics/visual impacts, air quality emissions, biological resource impacts, environmental justice, geologic impacts related to seismicity, hazards and hazardous materials, water quality, noise, traffic and transportation, socioeconomics, and cumulative impacts from past, present and reasonably foreseeable future projects.

4. **Alternatives.** The Draft EIS/EIR will include a co-equal analysis of several alternatives. Project alternatives will be further developed during this scoping process. Additional alternatives that may be developed during scoping will also be considered in the Draft EIS/EIR.

5. **Scoping Process.** The Corps and LAHD will jointly conduct a public

scoping meeting to receive public comment regarding the appropriate scope and preparation of the Draft EIS/EIR. Participation by Federal, state, and local agencies and other interested organization and persons is encouraged. This meeting will be conducted in English and Spanish.

6. The Draft EIS/EIR is expected to be available for public review and comment in 2015, and a public meeting will be held after its publication.

Dated: March 27, 2014.

David J. Castanon,

Chief, Regulatory Division.

BILLING CODE 3720-58-P

DEPARTMENT OF ENERGY

High Energy Physics Advisory Panel

AGENCY: Office of Science, Department of Energy.

ACTION: Notice of Open Meeting.

SUMMARY: This notice announces a meeting of the High Energy Physics Advisory Panel (HEPAP). The Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770) requires that public notice of these meetings be announced in the **Federal Register**.

DATES: Thursday, May 22, 2014, 8:30 a.m.–6:00 p.m., Friday, May 23, 2014, 8:30 a.m.–4:00 p.m.

ADDRESSES: Doubletree Bethesda, 8120 Wisconsin Avenue, Bethesda, MD 20814.

FOR FURTHER INFORMATION CONTACT: John Kogut, Executive Secretary, High Energy Physics Advisory Panel; U.S. Department of Energy; SC-25/ Germantown Building, 1000 Independence Avenue SW., Washington, DC 20585-1290; Telephone: (301) 903-1298.

SUPPLEMENTARY INFORMATION:

Purpose of Meeting: To provide advice and guidance on a continuing basis to the Department of Energy and the National Science Foundation on scientific priorities within the field of high energy physics research.

Tentative Agenda: Agenda will include discussions of the following:

May 22–23, 2014

- Discussion of Department of Energy High Energy Physics Program
- Discussion of National Science Foundation Elementary Particle Physics Program
- Reports on and Discussions of Topics of General Interest in High Energy Physics
- Public Comment (10-minute rule)

Public Participation: The meeting is open to the public. A webcast of this meeting will be available. Please check the Web site below for updates and information on how to view the meeting. If you would like to file a written statement with the Committee, you may do so either before or after the meeting. If you would like to make oral statements regarding any of these items on the agenda, you should contact John Kogut, (301) 903-1298 or John.Kogut@science.doe.gov. You must make your request for an oral statement at least 5 business days before the meeting. Reasonable provision will be made to include the scheduled oral statements on the agenda. The Chairperson of the Panel will conduct the meeting to facilitate the orderly conduct of business. Public comment will follow the 10-minute rule.

Minutes: The minutes of the meeting will be available on the U.S. Department of Energy's Office of High Energy Physics Advisory Panel Web site at: <http://science.energy.gov/hep/hepap/meetings/>.

Issued in Washington, DC, on April 7, 2014.

La'Tanya R. Butler,

Deputy Committee Management Officer.

DEPARTMENT OF ENERGY

Office of Energy Efficiency and Renewable Energy

[Docket No. EERE-2014-BT-BC-0017]

DOE Building Energy Codes Program Stakeholder Meeting

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice of public meeting.

SUMMARY: The DOE Building Energy Codes Program will host an upcoming public meeting to provide stakeholders with an update on program direction. DOE will present an overview of current activities and program organization in support of its mission to achieve energy savings through the development and implementation of building energy codes. DOE will solicit public comment and discussion surrounding information presented.

DATES: DOE will hold a public meeting on Thursday, April 24, 2014, from 8:00 a.m. to 3:30 p.m. in Arlington, VA. Advance registration is required. Parties who wish to submit official comments following the meeting must do so by May 30, 2014.

ADDRESSES: The public meeting will be held at the DoubleTree Hotel—Crystal City, 300 Army Navy Drive, Arlington, VA 22203. To participate in the meeting, please submit an official request to BuildingEnergyCodes@ee.doe.gov, including attendee name and organizational affiliation.

Comments from the public will be accepted at the meeting. Additionally, following the meeting, a docket will be made available to accept public comment on topics discussed at the stakeholder meeting. Interested parties may submit comments by any of the following methods:

- **Email:**

AprilBldgCodesMtg2014BC0017@ee.doe.gov. Include “April 2014 Building Energy Codes Stakeholder Meeting” in the subject line of the message.

- **Federal eRulemaking Portal:** www.regulations.gov. Follow the instructions for submitting comments.

- **Postal Mail:** Ms. Brenda Edwards, U.S. Department of Energy, Building Technologies Office EE-5B, 1000 Independence Avenue SW., Washington, DC 20585-0121. Phone: (202) 586-2945. Please submit one signed paper original.

- **Hand Delivery/Courier:** Ms. Brenda Edwards, U.S. Department of Energy, Building Technologies Office, 950 L'Enfant Building, 6th floor, Room 6052, 950 L'Enfant Plaza SW., Washington, DC 20024. Phone: (202) 586-2945. Please submit one signed paper original.

Instructions: All submissions must include the agency name, U.S. Department of Energy, and docket number EERE-2014-BT-BC-0017.

Docket: The docket is available for public review at www.regulations.gov. All documents in the docket are listed in the index. A link to the docket Web page can be found at <http://www.regulations.gov/#!docketDetail;D=EERE-2014-BT-BC-0017>. The Regulations.gov Web site contains instructions on how to access all documents, including public comments, in the docket.
