SUPPLEMENTARY INFORMATION:

A. Background

GSA published a proposed rule with a request for public comments in the **Federal Register** at 77 FR 76446 on December 28, 2012, to address use of revised GSAR clause 552.238–74 Industrial Funding Fee (IFF) under the Multiple Award Schedules (MAS) Program, and reinstatement with changes of the information collection requirement concerning OMB Control Number 3090–0121, Industrial Funding Fee (IFF) and Sales Reporting. One comment was received.

In response, GSA published a second Information Collection notice request for public comments in the **Federal Register** at 78 FR 27239, on May 9, 2013 in which the comment from the first notice was addressed and to receive additional comments on the collection. One comment pertaining to the rule was received and is addressed in the Discussion and Analysis section of this rule. Another comment was received pertaining to the collection and is addressed in the Paperwork Reduction Act section of this rule.

The proposed rule sought to amend the GSAR to update the text addressing GSAR part 552, Solicitation Provisions and Contract Clauses at 552.238–74 Industrial Funding Fee (IFF) and Sales Reporting. This change will improve the Multiple Award Schedules (MAS) Program by facilitating transparency and open government, and more accurately define the current MAS Program operations while simultaneously complying with the recommendations of the GSA Office of Inspector General (OIG).

Currently, the language contained in the IFF Clause under GSAR 552.238–74(b)(2) states “. . . The IFF reimburses the Federal Supply Service for the costs of operating the Federal Supply Schedules Program and recoups its operating costs from ordering activities.” The GSA OIG's *Audit of the Multiple Award Schedule Program Industrial Funding Fee (Report Number A090256/Q/A/P12003)*, dated February 3, 2012 (the “OIG Report”), recommended that GSA further improve transparency in the MAS Program by informing MAS customers that the IFF may be used to fund other eligible GSA
