Background

Due to several recent fatal motorcoach crashes, the Congress, the Department of Transportation (DOT), specifically the Federal Motor Carrier Safety Administration (FMCSA) and other Federal oversight agencies, including the National Transportation Safety Board (NTSB), have increased their scrutiny over the motorcoach industry and the enforcement of and compliance with the Federal Motor Carrier Safety Regulations (FMCSRs). NTSB issued safety recommendations, H-99-007 and

H-99-008, to the Department of Transportation (DOT), on February 26, 1999, requiring motorcoach operators to provide passengers with pre-trip safety awareness information. This recommendation resulted from NTSB's investigation of two motorcoach crashes from the late 1990s which revealed that passengers felt a general sense of panic, not knowing what to do on a motorcoach in the case of an emergency. The intent of the recommendation is to empower passengers to take their personal safety into their own hands in the event of an imminent hazard or emergency situation. The decision was made to implement the recommendation through voluntary adoption and compliance of pre-trip safety briefings in the motorcoach industry.

The goals and objectives of this survey are to assess the current levels of voluntary compliance by motorcoach operators and to obtain passenger opinions of the implementation of the pre-trip safety awareness and emergency preparedness information. The Form MCSA-5868 will be used to survey motorcoach passengers. This information, along with its conclusions, will not serve as a national estimate, but will provide the Agency a general sense of voluntary compliance and suggestions for improvement. FMCSA will use the information to determine whether further evaluation is needed to support future program, policy, and regulatory initiatives. As appropriate, the information will be presented to NTSB and Congress, while also contributing to the general literature regarding practices for improving motorcoach safety in the United States.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FMCSA to perform its functions; (2) the accuracy of the estimated burden; (3) ways for the FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information.

SUPPLEMENTARY INFORMATION:

Background: Executive Order 12862 "Setting Customer Service Standards," direct Federal agencies to provide service to the public that matches or exceeds the best service available in the private sector (58 FR 48257, Sept. 11, 1993). In order to work continuously to ensure that our programs are effective and meet our customers' needs, FMCSA seeks to obtain OMB approval of a

generic clearance to collect qualitative feedback from our customers on our service delivery. The surveys covered in this generic clearance will provide a means for FMCSA to collect this data directly from our customers. The information collected from our customers and stakeholders will help ensure that users have an effective, efficient, and satisfying experience with FMCSA's programs. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. It will also allow feedback to contribute directly to the improvement of program management. The responses to the surveys will be voluntary and will not involve information that is required by regulations.
