

called the Wascana Pipeline, which extends from the Murphy Oil terminal northeast of Poplar, Montana, to the international border near Raymond, Montana, and which was constructed pursuant to authorization in a 1972 Permit issued to Wascana Pipeline Corp. Plains Pipeline has acquired an approximately 6.4-mile segment of the Poplar Pipeline extending from Raymond Station to the international border, repaired and replaced portions of the pipeline in that area, and installed two block valves. Plains Pipeline has submitted an application for a new Presidential Permit in its name and requests that the new Permit cover approximately 85 feet of pipeline facilities extending from a new block valve to the international border. Plains Pipeline has reported that it has separately constructed the Bakken North pipeline that extends from Trenton, North Dakota to Raymond Station, and that it intends to interconnect the Bakken North with the Poplar Pipeline in order to use the Poplar Pipeline border crossing to transport the Bakken North crude into Canada.

Plains Pipeline has stated that, upon returning the upgraded pipeline facilities to service under the 2007 Presidential Permit, Plains Pipeline will continue to operate the acquired facilities for the same purpose of transporting crude oil between the United States and Canada. It has further stated that the acquired pipeline facilities and the operation and maintenance thereof authorized by the 2007 Permit will remain substantially the same as before the transfer of the facilities to Plains Pipeline. Plains Pipeline is not seeking authorization for new construction or a change in operations.

Under E.O. 13337, the Secretary of State is designated and empowered to receive all applications for Presidential Permits for the construction, connection, operation, or maintenance at the borders of the United States of facilities for the exportation or importation of liquid petroleum, petroleum products, or other fuels (except natural gas) to or from a foreign country. The Department of State is circulating this application to concerned federal agencies for comment. The Department of State has the responsibility to determine whether issuance of a new Presidential Permit in light of Plains' acquisition and continued operation of the pipeline facilities would serve the U.S. national interest.

Plains Pipeline's application is available at <http://www.state.gov/e/enr/applicant>.
