

market price considered by the Committee.

In accordance with its regulations, the Committee considers whether the addition of an item to the PL would likely have a severe adverse impact on the current contractor by evaluating the financial data of the current contractor and its affiliated and parent corporations. The Committee does not separate contractors into "economically disadvantaged business enterprise" categories when reviewing the requested financial information. The contractor refused to provide the financial information of its affiliated and parent corporations. Following its standard practice, without such information, the Committee was unable to determine whether the addition of the service to the PL would result in severe adverse impact or if the contractor was more dependent on the sales; therefore, the Committee notified the contractor that it was proceeding with development of the project.

The contractor claims that ANCs are granted certain contracting benefits which should prevent the Committee from adding this project to the PL. However, the Committee's responsibility is to implement the JWOD Act and the Government's policy to increase employment opportunities for people who are blind or severely disabled. The Committee's authority to determine whether products or services are suitable for procurement from people with significant disabilities is not precluded by the limited contract preferences afforded to ANCs. The Committee determines that the JWOD Act coexists with and remains relevant in light of the statutes that afford limited contract preference to ANCs.

The contractor is incorrect in alleging that the BOS service contract will not generate employment for people with severe disabilities since each function or service will not be performed using a 75% severely disabled workforce, thereby demonstrating that the nonprofit agency is incapable of performing the services or doing so at a fair market price. The JWOD Act has no requirement that each service involved in a contract be performed using a 75% disabled workforce. The Committee determines which services and products provided by qualified nonprofit agencies employing people who are blind or severely disabled are suitable to be added to the PL. A qualified nonprofit agency is one that employs people who are blind or severely disabled for not less than 75% of the direct labor hours involved in furnishing all goods and services provided by the nonprofit agency during

the fiscal year, including those furnished outside the AbilityOne Program. The nonprofit agencies proposed to perform the work will maintain compliance with the statutory direct labor ratio requirement. Moreover, the information available to the Committee convincingly documents that the BOS service will generate employment for people with severe disabilities; that the nonprofit agency is capable of performing the services; and that the service can be performed at a fair market price established by the Committee.

Accordingly, after full consideration, the Committee has determined that the service in question is suitable for addition to the Procurement List.
