

### III. Preliminary Findings on the Application

OSHA's preliminary findings:

1. UL submitted an acceptable application for expansion of its scope of recognition. OSHA's review of the application file and its comparability analysis indicate that UL can meet the requirements prescribed by 29 CFR 1910.7 for expanding its recognition to include the addition of 21 test standards for NRTL testing and certification listed above. This preliminary determination does not constitute an interim or temporary approval of UL's application.

2. The UL 66 and UL 8750 test standards are appropriate test standards, and OSHA proposes to include these test standards in the NRTL Program's list of appropriate test standards.

OSHA welcomes public comment as to whether UL meets the requirements of 29 CFR 1910.7 for expansion of its recognition as an NRTL. OSHA also seeks comments as to whether the UL 66 and UL 8750 test standards are appropriate test standards under the NRTL Program. Comments should consist of pertinent written documents and exhibits. Commenters needing more time to comment must submit a request in writing, stating the reasons for the request. Commenters must submit the written request for an extension by the due date for comments. OSHA will limit any extension to 10 days unless the requester justifies a longer period. OSHA may deny a request for an extension if the request is not adequately justified. To obtain or review copies of the publicly available information in UL's application, including pertinent documents (e.g., exhibits) and all submitted comments, contact the Docket Office, Room N-2625, Occupational Safety and Health Administration, U.S. Department of Labor, at the above address; these materials also are available online at <http://www.regulations.gov> under Docket No. OSHA-2009-0025.

The OTPCA staff will review all comments to the docket submitted in a timely manner and, after addressing the issues raised by these comments, will recommend to the Assistant Secretary for Occupational Safety and Health whether to grant UL's application for expansion of its scope of recognition and whether to add the two test standards to the NRTL list of appropriate test standards. The Assistant Secretary will make the final decision on granting the application and adding the two new test standards. In making this decision, the Assistant Secretary may undertake other

proceedings prescribed in Appendix A to 29 CFR 1910.7.

OSHA will publish a public notice of its final decision in the **Federal Register**.

### IV. Authority and Signature

David Michaels, Ph.D., MPH, Assistant Secretary of Labor for Occupational Safety and Health, 200 Constitution Avenue NW., Washington, DC 20210, authorized the preparation of this notice. Accordingly, the Agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor's Order No. 1-2012 (77 FR 3912, Jan. 25, 2012), and 29 CFR 1910.7.

Signed at Washington, DC, on April 16, 2014.

**David Michaels,**

*Assistant Secretary of Labor for Occupational Safety and Health.*

[FR Doc. 2014-09075 Filed 4-21-14; 8:45 am]

**BILLING CODE 4510-26-P**

## DEPARTMENT OF LABOR

### Occupational Safety and Health Administration

[Docket No. OSHA-2013-0025]

### Revocation of Permanent Variances Granted for Chimney Construction

**AGENCY:** Occupational Safety and Health Administration, Labor.

**ACTION:** Notice revoking permanent variances.

**SUMMARY:** With this notice, the Occupational Safety and Health Administration ("OSHA" or the "Agency") is revoking permanent variances that it granted between 1973 and 2010 to 24 companies engaged in chimney construction (hereafter, "previous variances"). The previous variances provided the companies with an alternative means of complying with provisions of OSHA standards regulating boatswains' chairs, personnel platforms, and hoist towers.

**DATES:** The effective date for revoking the previous variances is April 22, 2014.

**ADDRESSES:** *Copies of the **Federal Register** notice:* Electronic copies of this **Federal Register** notice are available at <http://www.regulations.gov>. This **Federal Register** notice, as well as other relevant information, also is available on OSHA's Web page at <http://www.osha.gov>.

**FOR FURTHER INFORMATION CONTACT:** Information regarding this notice is available from the following sources:

*Press inquiries:* Contact Mr. Frank Meilinger, Director, OSHA Office of

Communications, U.S. Department of Labor, 200 Constitution Avenue NW., Room N-3647, Washington, DC 20210; telephone: (202) 693-1999; email: [Meilinger.francis2@dol.gov](mailto:Meilinger.francis2@dol.gov).

*General and technical information:* Contact Mr. David Johnson, Director, Office of Technical Programs and Coordination Activities, Directorate of Technical Support and Emergency Management, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue NW., Room N-3655, Washington, DC 20210; telephone: (202) 693-2110; email: [johnson.david.w@dol.gov](mailto:johnson.david.w@dol.gov). OSHA's Web page includes information about the Variance Program (see <http://www.osha.gov/dts/otpca/variances/index.html>).

**SUPPLEMENTARY INFORMATION:** On October 2, 2013, OSHA published a **Federal Register** notice (78 FR 60900) in which it updated the previous variances with a single, permanent variance ("the uniform variance"). The 2013 **Federal Register** notice granted the uniform variance to a number of the companies that held previous variances. On January 31, 2014, OSHA published a **Federal Register** notice (79 FR 5462) in which it proposed to revoke the previous variances. OSHA received no comments on the proposed revocation. Therefore, with this action, OSHA is revoking the previous variances and invites employers not covered by the uniform variance to submit applications for an equivalent variance.

### I. Background

#### A. Previous Chimney-Related Construction Variances

From 1973 through 2010, the Agency granted permanent variances to a number of chimney-construction companies from the provisions of the OSHA standards that regulate boatswains' chairs, personnel platforms, and hoist towers, specifically, paragraph (o)(3) of 29 CFR 1926.452 and paragraphs (c)(1) through (c)(4), (c)(8), (c)(13), (c)(14)(i), and (c)(16) of 29 CFR 1926.552.<sup>1</sup> Several of these previous variances limited the scope of the variances only to chimneys constructed using jump-form construction techniques and procedures (see, for example, 38 FR 8545 granted April 3, 1973, and 71 FR 10557 granted March

<sup>1</sup> See 38 FR 8545 (April 3, 1973), 44 FR 51352 (August 31, 1979), 50 FR 20145 (May 14, 1985), 50 FR 40627 (October 4, 1985), 52 FR 22552 (June 12, 1987), 68 FR 52961 (September 8, 2003), 70 FR 72659 (December 6, 2005), 71 FR 10557 (March 1, 2006), 72 FR 6002 (February 8, 2007), 74 FR 34789 (July 17, 2009), 74 FR 41742 (August 18, 2009), and 75 FR 22424 (April 28, 2010).

1, 2006), while more recently granted chimney-construction variances, limited the scope of the variances to the construction of tapered chimneys using jump-form construction techniques and procedures (see, for example, 75 FR 22424; April 28, 2010). In addition, the conditions specified in the previous variances became somewhat inconsistent over time, and none of these variances kept pace with updated construction methods used by, and technological advances taking place in, the chimney-construction industry.

#### *B. Grant of the Uniform Chimney-Construction Variance*

In the period from November 2012 through January 2013, 15 employers involved in chimney construction submitted applications for a new permanent variance under Section 6(d) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 655) and 29 CFR 1905.11 (“Variances and other relief under section 6(d)”). The applicants construct, renovate, repair, maintain, inspect, and demolish tall chimneys and similar structures made of concrete, brick, and steel. This work, which occurs throughout the United States, requires employers to transport employees and construction tools and materials to and from elevated worksites located inside and outside these structures.

As in the past, the employers sought a permanent variance from paragraph (o)(3) of 29 CFR 1926.452, which regulates the tackle used to rig a boatswain’s chair, as well as paragraphs (c)(1) through (c)(4), (c)(8), (c)(13), (c)(14)(i), and (c)(16) of 29 CFR 1926.552, which regulate personnel platforms and hoist towers. OSHA consolidated these variance applications into a single application and published the uniform variance application, along with a request for public comment, in the **Federal Register** on March 21, 2013 (78 FR 17432). On October 2, 2013, the Agency granted the permanent variance in a notice published in the **Federal Register** (78 FR 60900). The scope of the uniform variance included both chimneys and chimney-related structures such as silos and towers, as well as jump-form and slip-form

construction techniques and procedures, regardless of structural configuration.<sup>2</sup> Additionally, the uniform variance added or revised conditions that improved worker safety, including: Condition 3 (Definitions), which defines 29 key terms used in the variance, usually technical terms, for the purpose of standardizing and clarifying the meaning of these terms; Condition 5 (Hoist Machines), which updates the requirements for the design and use of hoist machines based on guidance provided by American National Standards Institute (ANSI) A10.22–2007; and Condition 6 (Methods of Operation), which expands and clarifies the training requirements for both the operators of the hoist machine and the employees who ride in the cage (this condition adopted several provisions of ANSI A10.22–2007). (See the table and preamble in 78 FR 60900, October 2, 2013, for an extensive description of the differences between the uniform variance and a previous variance published in 2010.)

In view of the Agency’s history with the variances granted for chimney-related construction, OSHA determined that it should replace the previously granted variances (1973 through 2010) with the recently published uniform variance. In doing so, OSHA believes that the uniform variance, when compared to the previous variances: (1) provides more consistency across the conditions specified by the variance, thereby expediting OSHA’s enforcement of the conditions; (2) allows employers to use updated technology and industry practices; and (3) increases worker safety.

In developing the uniform variance, OSHA sent a letter on December 21, 2012, to all employers holding previous chimney-construction variances (see Ex. OSHA–2013–0025–0001 for a sample letter). The letter informed them of the process of developing a uniform variance and of OSHA’s plan to revoke all previous chimney-construction variances once OSHA published the uniform variance. In response to this letter, 15 chimney-construction employers holding previous variances applied for the new uniform variance.

## II. Multi-State Variances

Twenty-seven states have safety and health plans approved by OSHA under Section 18 of the Occupational Safety and Health (OSH) Act (29 U.S.C. 667) and 29 CFR part 1952 (“Approved State Plans for Enforcement of State Standards”). Of these states, 18 states have standards identical to the Federal OSHA standards. These states are: Alaska, Arizona, Hawaii, Indiana, Iowa, Kentucky, Maryland, Minnesota, Nevada, New Mexico, North Carolina, Oregon, Puerto Rico, South Carolina, Tennessee, Vermont, Virginia, and Wyoming. Accordingly, the revocation action announced in this notice applies to the previous variances granted in the 17 states and two territories that have standards identical to the Federal OSHA standards.<sup>3</sup>

The State Plans operated by Hawaii, Iowa, Kentucky, and South Carolina either declined to accept the terms of previous variances or stated that affected employers must apply to the state program for a state variance prior to initiating chimney construction. Because these State Plans elected to exercise control over the variances, this revocation action does not apply to any chimney-construction variances granted under these State-Plan programs.

State-Plan programs operated by four states (California, Michigan, Utah, and Washington) have requirements in their construction standards for the tackle used to rig a boatswain’s chair, personnel platforms, and hoist towers that differ from the requirements specified by the Federal OSHA standards. In these cases, only the State-Plan program has authority to issue variances from these requirements. Therefore, the revocation action described herein does not apply to any variances issued by these states involving these requirements.

## III. Previous Chimney-Construction Variances

The following table provides information about the previous variances granted by OSHA between 1973 and 2010 for chimney construction, and which are subject to the revocation action described in this notice.<sup>4</sup> Refer to the **Federal Register**

Utah, Vermont, Virginia, Washington, and Wyoming. The application of this revocation action to these State Plans varies depending on several factors described later in this section.

<sup>4</sup> As noted above, the previous variances addressed the requirements of paragraph (o)(3) of 29 CFR 1926.452, which regulates the tackle used to rig a boatswain’s chair, and paragraphs (c)(1) through (c)(4), (c)(8), (c)(13), (c)(14)(i), and (c)(16) of 29 CFR 1926.552, which regulate personnel platforms and hoist towers.

<sup>2</sup> Throughout this notice, OSHA uses the terms “jump-form construction” and “slip-form construction” instead of “jump-form formwork construction” and “slip-form formwork construction,” respectively.

<sup>3</sup> State-Plan programs operated by four states and one territory (Connecticut, Illinois, New Jersey, New York, and the Virgin Islands) limit their occupational safety and health authority to public-sector (i.e., state and local government) employers only. Federal OSHA retains authority over private-

sector employers in these states and territory; therefore, private-sector employers in these states and territory are subject to the previous variances granted by Federal OSHA, and to this revocation action. Twenty-one states and one territory operate State Plans that exercise occupational safety and health authority over both public-sector employers and private-sector employers; these states and territory are: Alaska, Arizona, California, Hawaii, Indiana, Iowa, Kentucky, Maryland, Michigan, Minnesota, Nevada, New Mexico, North Carolina, Oregon, Puerto Rico, South Carolina, Tennessee,

citation in the table to obtain detailed information about these previous variances.

information about these previous variances.

TABLE 1—PREVIOUS CHIMNEY VARIANCES

Name of employer (Company)	Variance or docket No.	Date granted	Federal Register citation	Applied for uniform variance?
Airtek-Karrena Chimney Corporation	V-79-3	08/31/79	44 FR 51350	No.
Avalotis Corporation	OSHA-2009-005	04/28/10	75 FR 22424	Yes.

Zachry Construction Corporation	OSHA-2007-0046	07/17/09	74 FR 34789	No.

\* The current name of the company is listed. Names in parentheses are the name listed on the original variance, followed by any subsequent names.

\*\* Includes a subsequent interim order granted 03/26/07.

IV. Revocation of Previous Variances

Based on its review of the record and the findings described in this Federal Register notice, OSHA determined that the conditions specified in the uniform variance published on October 2, 2013, (78 FR 60900) provide consistent and technologically sound measures designed to replace and supersede the previous chimney-construction variances granted by OSHA prior to 2010. Accordingly, OSHA finds that the uniform variance, when compared to the previous variances: (1) Provides more consistency across the conditions specified by the variance, thereby expediting OSHA's enforcement of the conditions; (2) allows employers to use updated technology and industry practices; and (3) increases worker safety. Therefore, under the authority granted by 29 CFR 1905.13(a)(2), on January 31, 2014, OSHA published a

Federal Register notice (79 FR 5462) in which it proposed to revoke the previous variances. OSHA received no comments on the proposed revocation, including no comments from State Plans.

Consequently, following the publication of this revocation notice, employers involved in chimney construction will either have to comply with the requirements of paragraph (o)(3) of 29 CFR 1926.452 and paragraphs (c)(1) through (c)(4), (c)(8), (c)(13), (c)(14)(i), and (c)(16) of 29 CFR 1926.552 or, if granted a uniform variance, comply with the conditions of that variance. OSHA granted the uniform variance to the following 15 employers:

- Avalotis Corp; 400 Jones Street, Verona, PA 15147
- Bowen Engineering Corporation (merged with Mid-Atlantic Boiler & Chimney, Inc., (formerly Alberici Mid-

Atlantic, LLC)), 8802 N. Meridian St. Indianapolis, IN 46260

- Commonwealth Dynamics, Inc., 95 Court Street, Portsmouth, NH 03801

- Gibraltar Chimney International, LLC, 92 Cooper Ave. Tonawanda, NY 14150

- Hamon Custodis, Inc. (formerly Custodis Construction Co., Inc., then Custodis Cuttrel, Inc.), 58 East Main Street, Somerville, NJ 08876

- Hoffman, Inc., 6001 49th Street South, Muscatine, IA 52761

- International Chimney Corporation, 55 South Long Street, Williamsville, NY 14221

- Karrena International Chimney, 57 South Long Street, Williamsville, NY 14221

- Kiewit Power Constructors Co., 9401 Renner Blvd., Lenexa, KS 66219

- Matrix SME, Inc. (formerly Matrix Service Industrial Contractors, Inc.),

1510 Chester Pike, Suite 500,  
Eddystone, PA 19022

- NAES Power Contractors (formerly American Boiler and Chimney Company), 167 Anderson Rd., Cranberry Township, PA 16066

- Pullman Power, LLC (formerly M. W. Kellogg Co., then Pullman Power Products Corporation), 6501 E. Commerce Avenue, Suite 200, Kansas City, MO 64120

- R and P Industrial Chimney Co., Inc., 244 Industrial Parkway, Nicholasville, KY 40356

- T. E. Ibberson Company, 828 5th St. South, Hopkins, MN 55343

- TIC-The Industrial Company, 9780 Mt. Pyramid Ct., Suite 100, Englewood, CO 80112

Nine employers hold previous variances and did not apply for the uniform variance. These employers are:

- Airtek-Karrena Chimney Corporation, 1776 Heritage Drive, Quincy, MA 02171

- Calaveras Power Partners, Inc., P. O. Box 241769, San Antonio, TX 78224

- Continental-Heine Chimney Company, Inc., 127 North Dearborne Street, Chicago, IL 60602

- Francis Hankin and Company, Inc., 117 Crockford Boulevard, Scarborough, Ontario, Canada, M1R 3B9

- Matrix Service, Inc., 3810 Bakerview Spur, Bellingham, WA 98226

- Oak Park Chimney Corporation, 1800 Des Plaines Avenue, Forest Park, IL 60130

- PDM Steel Service Centers (formerly Pittsburgh-Des Moines Steel Company) 3535 East Myrtle Street, Stockton, CA 95205

- Rust Constructors, Inc. (formerly Rust Engineering Co.), 2 Perimeter Park South, Suite 300W, Birmingham, AL 35243

- Zachry Construction Corporation, 527 Logwood, San Antonio TX 78221

Under this revocation action, these nine employers, when engaged in chimney construction, will have to comply with the requirements of paragraph (o)(3) of 29 CFR 1926.452 when rigging tackle for boatswain's chairs, and paragraphs (c)(1) through (c)(4), (c)(8), (c)(13), (c)(14)(i), and (c)(16) of 29 CFR 1926.552 when using personnel platforms and hoist towers. OSHA invites these employers, and any other employers seeking an alternative means of complying with these provisions, to submit applications for a variance containing conditions that are equivalent to the conditions specified by the uniform variance.

#### V. Authority and Signature

David Michaels, Ph.D., MPH,  
Assistant Secretary of Labor for

Occupational Safety and Health, U.S. Department of Labor, 200 Constitution Ave., NW., Washington, DC, authorized the preparation of this notice. OSHA is issuing this notice under the authority specified by 29 U.S.C. 655, Secretary of Labor's Order No. 1-2012 (76 FR 3912; Jan. 25, 2012), and 29 CFR part 1905.

Signed at Washington, DC, on April 16, 2014.

**David Michaels,**

*Assistant Secretary of Labor for Occupational Safety and Health.*

**BILLING CODE 4510-26-P**

## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: 14-038]

### Notice of Information Collection

**AGENCY:** National Aeronautics and Space Administration (NASA).

**ACTION:** Notice of information collection.

**SUMMARY:** The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public to take this opportunity to comment on the "Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery" for approval under the Paperwork Reduction Act (PRA). This collection was developed as part of a Federal Government-wide effort to streamline the process for seeking feedback from the public on service delivery. This notice announces our intent to submit this collection to OMB for approval and solicits comments on specific aspects for the proposed information collection.

**DATES:** Consideration will be given to all comments received within 60 days after from the date of this publication.

**ADDRESSES:** All comments should be addressed to Frances Teel, National Aeronautics and Space Administration, Washington, DC 20546-0001, [frances.c.teel@nas.gov](mailto:frances.c.teel@nas.gov). Please do not include information of a confidential nature, such as sensitive personal information or proprietary information, in your comments.

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Frances Teel, NASA PRA Clearance Officer, NASA Headquarters, 300 E Street SW., Mail Code JF0000, Washington, DC 20546 or [frances.c.teel@nasa.gov](mailto:frances.c.teel@nasa.gov).

**Title:** Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

**Abstract:** The proposed information collection activity provides a means to garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

The solicitation of feedback will target areas such as: timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on the Agency's services will be unavailable.

The Agency will only submit a collection for approval under this generic clearance if it meets the following conditions:

- The collections are voluntary;
- The collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;
- The collections are non-controversial and do not raise issues of concern to other Federal agencies;
- Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;
- Personally identifiable information (PII) is collected only to the extent necessary and is not retained;
- Information gathered will be used only internally for general service improvement and program management
