

basic criteria. A maximum of 100 total points can be earned by a proposal, as illustrated below:

- Feasibility assessment shows economic viability for the proposed project. (20 points)
- Woody Biomass Resource Supply Assessment demonstrates: (1) An adequate long-term supply of wood to satisfy lender or public financing requirements, and (2) the degree to which the project supports hazardous fuel reduction or forest health management needs on National Forest System lands. (20 points)
- Demonstrates appropriate partnering, technical expertise, and financial health of applicant. (20 points)
- Presents a realistic timeline, scope, and project accomplishments. (20 points)
- Includes geographic or sector-based clusters (e.g. campuses, hospitals, prisons, poultry houses). (20 points)

6. Application Information

a. Application Submission.

Applications must be submitted electronically to the individual email address for the respective Forest Service Regional Biomass Coordinator listed in the **ADDRESSES** section of this announcement by 11:59 p.m. on June 3, 2014. NO EXCEPTIONS. Paper submittals will not be accepted. If submitted through www.grants.gov, the application must be submitted by 11:59 p.m. on June 3, 2014. Your Forest Service Region is generally determined by the State where the majority of the proposed work will be conducted under the grant. In a few instances, two Forest Service regions may exist in one State. Forest Service regions can be located at <http://www.fs.fed.us/maps/products/guide-national-forests09.pdf>. Consult with the respective Forest Service Regional Biomass Coordinator if you are not certain which Region would apply.

b. *Application Format and Content.* Each submittal must consist of two separate PDF (or Word) files, as follows:

1. Proposal narrative and appendices (W2E Application Part 1 & Part 2, and Appendices)
2. Financial forms (W2E Application Part 3)

Text must be no smaller than 11 point font. A normal page in an application is defined as 8.5 inches by 11 inches with at least 1/2-inch margins. Submit all application information at the same time. The application template and financial forms can be found at <http://www.na.fs.fed.us/werc/> under 2014 Wood to Energy Grants.

A complete application includes the following items:

1. W2E Project Application, Part 1: Cooperator Contact Information
2. W2E Project Application, Part 2: Narrative Proposal and Required Appendices
3. W2E Project Application, Part 3: Financial Forms must include SF-424, SF-424A, SF-424B, AD-1047, AD-1049 (or AD-1052 for States and State agencies), AD-3030, and FS-1500-35 (certificate regarding lobbying activities).

A maximum of 15 pages per proposal for items #1 through #4 listed below will be accepted:

1. Project Narrative (10 pages)

The project narrative must provide a clear description of the work to be performed; impact from removing woody biomass and creating renewable energy, especially how it benefits National Forest System lands (e.g. tons of biomass removed that would have otherwise been burned, cost savings to landowners, source of biomass removed from forested areas broken out by ownership); how jobs will be created, retained, and sustained; and how geographic or sector-based clusters will be incorporated into the project. Application narrative should address the discussion areas listed in the W2E Application, Part 2.

2. Budget Summary Justification in Support of SF-424A (2 pages)

3. Qualifications and Summary Portfolio of Engineering Services (2 pages)

For the engineering systems, the project usually consists of a system designer, project manager, equipment supplier, project engineer, construction contractor of system installer, and a system operator and maintainer. One individual or entity may serve more than one role. The project team must have demonstrated expertise in similar wood energy systems development, engineering, installation, and maintenance. The application must include authoritative evidence that project team service providers have the necessary professional credentials or relevant experience to perform the required services and that vendors of proprietary components can provide necessary equipment and spare parts for the system to operate over its design life. A list of the same or similar projects designed, installed, and currently operating must be provided along with appropriate contacts.

4. Community Benefit Statement (1 page)

Provide a one-page narrative on social, environmental, and economic

impact and importance of project to community. Examples include, but are not limited to, fossil fuel offsets, jobs created, community support, fuel savings, forest management benefits, or local businesses supported.

7. Appendices

The following information must be included in appendices:

- a. *Comprehensive Feasibility Assessment.*
- b. *Woody Biomass Resource Supply Assessment.*
- c. *Quotes for Professional Engineering Services* (minimum of two quotes): Rationale for selection of engineering firm, if already selected.
- d. *Letters of Support from Partners, Individuals, or Organizations:* Letters of support are intended to display the degree of collaboration occurring between the different entities engaged in the project. These letters must include partner commitments of cash or in-kind services from all those listed in the SF-424 and SF-424A.
- e. *Miscellaneous, such as schematics.*
- f. *Federal Funds:* List all other Federal funds received for this project within the last 3 years. List agency, program name, and dollar amount.

Documentation exceeding the designated page limit requirements for any given section will not be considered.
