

**ACTION:** Final finding of no significant impact Detroit Job Corps Center Phase II located at 11801 Woodrow Wilson Street, Detroit, Michigan.

**SUMMARY:** Pursuant to the Council on Environmental Quality Regulations (40 CFR part 1500–08) implementing procedural provisions of the National Environmental Policy Act (NEPA), the Department of Labor, ETA, in accordance with 29 CFR 11.11(d), gives final notice of the proposed construction of the Phase II project at the Detroit Job Corps Center, and that this project will not have a significant adverse impact on the environment. Public scoping was initiated with a notice in the Southfield Sun in Detroit, Michigan on August 21, 2013. The scoping period extended for 30 days, ending on September 20, 2013. No public responses were received. No changes to the text of the environmental assessment (EA) have been made.

Implementation of the selected alternative will not have significant impacts on the human environment. The determination is sustained by the analysis in the EA, agency consultation, the inclusion and consideration of public review, and the capability of mitigations to reduce or avoid impacts. Any adverse environmental impacts that could occur are no more than minor in intensity, duration and context and less-than-significant. As described in the EA, there are no highly uncertain or controversial impacts, unique or unknown risks, significant cumulative effects or elements of precedence. There are no previous, planned, or implemented actions, which in combination with the selected alternative would have significant effects on the human environment. Requirements of NEPA have been satisfied and preparation of an Environmental Impact Statement is not required.

**DATES:** *Effective Date:* These findings are effective as of November 20, 2013.

**FOR FURTHER INFORMATION CONTACT:** William A Dakshaw, Department of Labor, 200 Constitution Avenue NW., Room N–4460, Washington, DC 20210, (202) 693–2867 (this is not a toll free number).

## NUCLEAR REGULATORY COMMISSION

[Docket No. NRC–2014–0078]

### Agency Information Collection Activities: Proposed Collection; Comment Request

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Notice of pending NRC action to submit an information collection request to the Office of Management and Budget (OMB) and solicitation of public comment.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) invites public comment about our intention to request the OMB's approval for renewal of an existing information collection that is summarized below. We are required to publish this notice in the **Federal Register** under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* NRC Form 536, "Operator Licensing Examination Data."

2. *Current OMB approval number:* 3150–0131.

3. *How often the collection is required:* Annually.

4. *Who is required or asked to report:* All holders of operating licenses for nuclear power reactors under the provision of Part 50 of Title 10 of the *Code of Federal Regulations* (10 CFR), "Domestic Licensing of Production and Utilization Facilities," except those that have permanently ceased operations and have certified that fuel has been permanently removed from the reactor vessel. All holders of, or applicants for, a limited work authorization, early site permit, or combined license issued under 10 CFR Part 52, "Licenses, Certifications and Approval for Nuclear Power Plants."

5. *The number of annual respondents:* 105.

6. *The number of hours needed annually to complete the requirement or request:* 105.

7. *Abstract:* The NRC is requesting renewal of its clearance to annually request all commercial power reactor

licensees and applicants for an operating license to voluntarily send to the NRC: (1) Their projected number of candidates for initial operator licensing examinations; (2) the estimated dates of the examinations; (3) if the examinations will be facility developed or NRC developed, and (4) the estimated number of individuals that will participate in the Generic Fundamentals Examination (GFE) for that calendar year. Except for the GFE, this information is used to plan budgets and resources in regard to operator examination scheduling in order to meet the needs of the nuclear power industry.

Submit, by June 23, 2014, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

The public may examine and have copied for a fee publicly-available documents, including the draft supporting statement, at the NRC's Public Document Room, Room O-1F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. The OMB clearance requests are available at the NRC's Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/>. The document will be available on the NRC's home page site for 60 days after the signature date of this notice.

Comments submitted in writing or in electronic form will be made available for public inspection. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed. Comments submitted should reference Docket No. NRC-2014-0078. You may submit your comments by any of the following methods: Electronic comments go to <http://www.regulations.gov> and search for Docket No. NRC-2014-0078. Mail comments to the Acting NRC Clearance Officer, Kristen Benney (T-5 F50), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

Questions about the information collection requirements may be directed to the Acting NRC Clearance Officer, Kristen Benney (T-5 F50), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-

6355; or by email to [INFOCOLLECTS.Resource@NRC.GOV](mailto:INFOCOLLECTS.Resource@NRC.GOV).

Dated at Rockville, Maryland, this 17th day of April, 2014.

For the Nuclear Regulatory Commission.

**Kristen Benney,**

*Acting NRC Clearance Officer, Office of Information Services.*

## **NUCLEAR REGULATORY COMMISSION**

**[Docket No. NRC-2013-0279]**

### **Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request**

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Notice of the OMB review of information collection and solicitation of public comment.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on December 30, 2013.

1. *Type of submission, new, revision, or extension:* Extension.

2. *The title of the information collection:* 10 CFR Part 19, "Notices, Instructions, and Reports to Workers: Inspection and Investigations."

3. *Current OMB approval number:* 3150-0044.

4. *The form number if applicable:* Not applicable.

5. *How often the collection is required:* As necessary in order that adequate and timely reports of radiation exposure be made to individuals involved in applicable NRC-licensed activities.

6. *Who will be required or asked to report:* Licensees authorized to receive, possess, use, or transfer material licensed by the NRC.

7. *An estimate of the number of annual responses:* 1,426,121.8 responses (1,405,114.8 third-party disclosures + 7 reporting responses + 21,000 recordkeepers).

8. *The estimated number of annual respondents:* 21,000 (3,000 NRC licensees + 18,000 Agreement State licensees).

9. *An estimate of the total number of hours needed annually to complete the requirement or request:* 329,273.7.

10. *Abstract:* Part 19 of Title 10 of the Code of Federal Regulations (10 CFR), requires licensees to advise workers on an annual basis of any radiation exposure in excess of 1 mSv (100 mrem) they may have received as a result of NRC-licensed activities or when certain conditions are met. These conditions apply during termination of the worker's employment, at the request of the workers, former workers, or when the worker's employer (the NRC licensee) must report radiation exposure information on the worker to the NRC. Part 19 also establishes requirements for instructions by licensees to individuals participating in licensed activities and options available to these individuals in connection with Commission inspections of licensees to ascertain compliance with the provisions of the Atomic Energy Act of 1954, as amended, Title II of the Energy Reorganization Act of 1974, and regulations, orders and licenses there under regarding radiological working conditions. The worker should be informed of the radiation dose he or she receives because: (a) That information is needed by both a new employer and the individual when the employee changes jobs in the nuclear industry; (b) the individual needs to know the radiation dose received as a result of the accident or incident (if this dose is in excess of the 10 CFR Part 20 limits) so that he or she can seek counseling about future work involving radiation, medical attention, or both, as desired; and (c) since long-term exposure to radiation may be an adverse health factor, the individual needs to know whether the accumulated dose is being controlled within the NRC limits. The worker also needs to know about health risks from occupational exposure to radioactive materials or radiation, precautions or procedures to minimize exposure, worker responsibilities and options to report any licensee conditions which may lead to or cause a violation of Commission regulations, and individual radiation exposure reports which are available to him.

The public may examine and have copied for a fee publicly-available documents, including the final supporting statement, at the NRC's Public Document Room, Room O-1F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. The OMB clearance requests are available at
