

for the proposed Moffat Project is to address two major issues: (1) Timeliness—the overall near-term water supply shortage, and (2) location—the imbalance in water storage and supply between the North and South systems. The Moffat Project would result in direct impacts to jurisdictional waters of the United States (U.S.), including wetlands. The placement of fill material in these waters of the U.S. for the construction of water storage and distribution facilities associated with developing additional water supplies requires authorization from the Corps under Section 404 of the Clean Water Act. The City and County of Denver is the Permittee and Applicant, acting by and through its Board of Water Commissioners (Denver Water).

The Final EIS was prepared in accordance with the National Environmental Policy Act of 1969, as amended (NEPA), and the Corps' regulations for NEPA implementation (33 Code of Federal Regulations [CFR] parts 230 and 325, Appendices B and C). The Corps, Omaha District, Denver Regulatory Office is the lead federal agency responsible for the Final EIS and information contained in the Final EIS serves as the basis for a decision regarding issuance of a Section 404 Permit. The Final EIS also provides information for local and state agencies having jurisdictional responsibility for affected resources.

DATES: Written comments on the Final EIS will be accepted on or before June 9, 2014.

ADDRESSES: Send written comments regarding the Proposed Action and Final EIS to Rena Brand, Moffat EIS Project Manager, U.S. Army Corps of Engineers, Omaha District, Denver Regulatory Office, 9307 South Wadsworth Boulevard, Littleton, CO 80128, or via email to moffat.eis@usace.army.mil. Requests to be placed on or be removed from the Project mailing list should also be sent to this address.

FOR FURTHER INFORMATION CONTACT: Rena Brand, Moffat EIS Project Manager, via phone at 303-979-4120, fax at 303-979-0602, or email at moffat.eis@usace.army.mil.

SUPPLEMENTARY INFORMATION: The purpose of the Final EIS is to provide decision-makers and the public with information pertaining to the Proposed Action and alternatives, and to disclose environmental impacts and identify mitigation measures to reduce impacts. Denver Water proposes to enlarge its existing 41,811-AF Gross Dam and Reservoir by 72,000 AF to a total storage capacity of 113,811 AF. Gross Dam and Reservoir is located in Boulder County,

CO, approximately 35 miles northwest of Denver and 6 miles southwest of the City of Boulder. The enlargement would be accomplished by raising the existing concrete gravity arch dam by 125 feet, from 340 to 465 feet high. The surface area of the reservoir would be expanded from approximately 418 to 818 acres. Denver Water is proposing to raise the dam an additional 6 feet to a total height of 471 feet with a surface area of 842 acres to create 5,000 AF of additional storage for environmental mitigation ("Environmental Pool"). The additional storage would be filled with water provided by the cities of Boulder and Lafayette. Using existing collection infrastructure, water from the Fraser River, Williams Fork River, and South Boulder Creek would be diverted and delivered during average to wet years via the Moffat Tunnel and South Boulder Creek to Gross Reservoir. There would be no additional diversions in dry years because Denver Water already diverts the maximum amount physically and legally available under its existing water rights. In order to firm this water supply and provide 18,000 AF per year of new firm yield, an additional 72,000 AF of storage capacity is necessary. To meet future demands, in most years, Denver Water would continue to rely on supplies from its North and South collection systems. In a drought or emergency, Denver Water would rely on the additional water it would have previously stored in the Moffat Collection System to provide the additional 18,000 AF of yield.

In addition to the Proposed Action (Alternative 1a)—Gross Reservoir Expansion (Additional 77,000 AF with the Environmental Pool for Mitigation), the Final EIS analyzed five additional alternatives: (1) Alternative 1c—Gross Reservoir Expansion (Additional 40,700 AF)/New Leyden Gulch Reservoir (31,300 AF); (2) Alternative 8a—Gross Reservoir Expansion (Additional 52,000 AF)/Reusable Return Flows/Gravel Pit Storage (5,000 AF); (3) Alternative 10a—Gross Reservoir Expansion (Additional 52,000 AF)/Reusable Return Flows/Denver Basin Aquifer Storage (20,000 AF); (4) Alternative 13a—Gross Reservoir Expansion (Additional 60,000 AF)/Transfer of Agricultural Water Rights/Gravel Pit Storage (3,625 AF); and (5) the No Action Alternative, which assumes that Denver Water would not receive approval from the Corps to implement the Moffat Project. The No Action Alternative would require Denver Water to use a combination of strategies to meet the need for additional water supply, including using a portion of its Strategic

Water Reserve and imposing mandatory restrictions to reduce demand during drought periods.

Copies of the Final EIS will be available for review at:

1. Arvada Library, 7525 West 57th Avenue, Arvada, CO 80002.
2. Boulder County Main Library, 1001 Arapahoe Avenue, Boulder, CO 80302.
3. Denver Central Library, 10 West 14th Avenue Parkway, Denver, CO 80204.
4. Fraser Valley Library, 421 Norgren Road, Fraser, CO 80442.
5. Golden Library, 1019 10th Street, Golden, CO 80401.
6. Granby Library, 55 Zero Street, Granby, CO 80446.
7. Kremmling Library, 300 South 8th Street, Kremmling, CO 80459.
8. Summit County Library North Branch, 651 Center Circle, Silverthorne, CO 80498.
9. Summit County Library South Branch, 504 Airport Road, Breckenridge, CO 80424.

BILLING CODE 3720-58-P

DEPARTMENT OF EDUCATION

[Docket No.: ED-2014-ICCD-0066]

Agency Information Collection Activities; Comment Request; William D. Ford Federal Direct Loan Program, Federal Direct PLUS Loan Request for Supplemental Information

AGENCY: Federal Student Aid (FSA) Department of Education (ED).

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 3501 *et seq.*), ED is proposing a revision of an existing information collection.

DATES: Interested persons are invited to submit comments on or before June 24, 2014.

ADDRESSES: Comments submitted in response to this notice should be

submitted electronically through the Federal eRulemaking Portal at <http://www.regulations.gov> by selecting Docket ID number ED–2014–ICCD–0066 or via postal mail, commercial delivery, or hand delivery. If the www.regulations.gov site is not available to the public for any reason, ED will temporarily accept comments at ICDocketMgr@ed.gov. Please note that comments submitted by fax or email and those submitted after the comment period will not be accepted; ED will ONLY accept comments during the comment period in this mailbox when the www.regulations.gov site is not available. Written requests for information or comments submitted by postal mail or delivery should be addressed to the Director of the Information Collection Clearance Division, U.S. Department of Education, 400 Maryland Avenue SW, LBJ, Mailstop L–OM–2–2E319, Room 2E103, Washington, DC 20202.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Stephanie Badger, 202–377–3229.

SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: William D. Ford Federal Direct Loan Program, Federal Direct PLUS Loan Request for Supplemental Information.

OMB Control Number: 1845–0103.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: Individuals or Households.

Total Estimated Number of Annual Responses: 1,230,000.

Total Estimated Number of Annual Burden Hours: 615,000.

Abstract: The Federal Direct PLUS Loan Request for Supplemental Information serves as the means by which a parent or graduate/professional student Direct PLUS Loan applicant may provide certain information to a school that will assist the school in originating the borrower's Direct PLUS Loan award, as an alternative to providing this information to the school by other means established by the school.

Dated: April 22, 2014.

Kate Mullan,

Acting Director, Information Collection Clearance Division, Privacy, Information and Records Management Services, Office of Management.

BILLING CODE 4000–01–P

DEPARTMENT OF ENERGY

Agency Request for Comments on Draft Solicitation for Renewable Energy Projects and Efficient Energy Projects

AGENCY: U.S. Department of Energy.

ACTION: Notice of availability and request for comments.

SUMMARY: The Loan Programs Office (LPO) of the Department of Energy (DOE) announces availability of a draft of a potential future solicitation for Federal Loan Guarantees for Renewable Energy Projects and Efficient Energy Projects. LPO invites comments regarding the draft of the potential future solicitation.

DATES: Comments regarding the draft of the potential future solicitation must be received on or before May 27, 2014.

ADDRESSES: Written comments may be sent to Peter W. Davidson, Executive Director, Loan Programs Office, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585. The draft solicitation is available on LPO's Web site at <http://www.lgprogram.energy.gov/>.

FOR FURTHER INFORMATION CONTACT: Peter W. Davidson, LPOREESolicitationQuestions@hq.doe.gov.

SUPPLEMENTARY INFORMATION: DOE is considering a potential future solicitation for Federal Loan Guarantees for Renewable Energy Projects and Efficient Energy Projects. Should DOE choose to proceed which such a solicitation, applicants would be invited to apply for loan guarantees from DOE to finance projects and facilities located in the United States that employ innovative renewable energy and energy efficiency technologies ("Renewable Energy Projects and Efficient Energy Projects"). DOE may make up to Two Billion Five Hundred Million Dollars (\$2,500,000,000) in loan guarantee authority available under the proposed solicitation for Renewable Energy Projects and Efficient Energy Projects, plus an additional amount that can be imputed based on the availability of an appropriation for the credit subsidy cost of such imputed loan guarantee authority. The amount of total loan guarantee authority that could be available pursuant to the proposed solicitation will depend on credit subsidy rates.

DOE is considering including in the potential future solicitation projects or facilities that use:

- (a) Renewable energy systems;
- (b) efficient electrical generation, transmission, and distribution technologies; or
- (c) efficient end-use energy technologies;

(within the meaning of those terms in Section 1703(b)(1), (6), and (7) of Title XVII). Should DOE choose to proceed which such a solicitation, DOE would look favorably on eligible projects that will have a catalytic effect on the commercial deployment of future Renewable Energy Projects and/or Efficient Energy Projects that replicate or extend the innovative feature of the eligible project. While comments are sought on all aspects of the draft solicitation, DOE is particularly interested in comments regarding technologies that that will have a catalytic effect on the commercial deployment of future Renewable Energy Projects and/or Efficient Energy Projects that replicate or extend the innovative feature of the eligible project.

LPO is announcing a draft of a potential future solicitation for Federal Loan Guarantees for Renewable Energy Projects and Efficient Energy Projects. LPO invites comments regarding the draft of the potential future solicitation.

Authority: Title XVII of the Energy Policy Act of 2005 (42 U.S.C. 16511 *et seq.*).
