SUPPLEMENTARY INFORMATION:

I. Background

In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, the Department of Homeland Security (DHS) United States

Coast Guard (USCG) proposes to update and reissue a current DHS system of records titled, “DHS/United States Coast Guard-024 Auxiliary Database (AUXDATA) System of Records.”

The DHS/USCG–024 Auxiliary Database System of Records allows the USCG to track and report contact, activity, performance, and achievement information about the members of its volunteer workforce element, the USCG Auxiliary. As a result of a biennial review of the system, (1) categories of individuals covered by the system have been updated to reflect the current year and accurate number of active duty and lawful residence admission, (2) categories of records in the system have been modified to include the member identification, and (3) the system manager and address have been updated to include command name, office symbol, and Mail Stop.

Consistent with DHS’s information sharing mission, information stored in the DHS/USCG–024 AUXDATA System of Records may be shared with other DHS components that have a need to know the information to carry out their national security, law enforcement, immigration, intelligence, or other homeland security functions. In addition, DHS/USCG may share information with appropriate federal, state, local, tribal, territorial, foreign, or international government agencies consistent with the routine uses set forth in this system of records notice.

This updated system will be included in DHS’s inventory of record systems.

II. Privacy Act

The Privacy Act embodies fair information practice principles in a statutory framework governing the means by which federal government agencies collect, maintain, use, and disseminate individuals’ records. The Privacy Act applies to information that is maintained in a “system of records.” A “system of records” is a group of any records under the control of an agency from which information is retrieved by

the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass U.S. citizens and lawful permanent residents. As a matter of policy, DHS extends administrative Privacy Act protections to all individuals when systems of records maintain information on U.S. citizens, lawful permanent residents, and visitors.

Below is the description of the DHS/USCG-024 Auxiliary Database System of Records.

In accordance with 5 U.S.C. 552a(r), DHS has provided a report of this system of records to the Office of Management and Budget and to Congress.

System of Records

SYSTEM LOCATION:

DHS maintains records are maintained at USCG Headquarters in Washington, DC, the USCG Operations Systems Center in Martinsburg, West Virginia, and field offices. AUXDATA is the information technology (IT) system in which records associated with this function are maintained.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

The USCG Auxiliary Program has approximately 31,000 members in active status and approximately 7,000 members in retired status (i.e., members who have 15 years of recorded Auxiliary membership, but no longer desire to engage in Auxiliary activities). Categories of individuals covered by this system include all current and former USCG Auxiliarists, the volunteer workforce element of the USCG. This includes applicants who have submitted requisite information to the USCG as part of the enrollment process to become a USCG Auxiliarist. The enrollment process entails submission of this information, verification of proper age, U.S. citizenship or lawful permanent residence admission, and completion of a background check conducted through the USCG Security Center (SECCEN) and the Office of Personnel Management (OPM). Auxiliary enrollment ends upon disenrollment, retirement, or death. An

Auxiliarist's AUXDATA records are archived upon the end of their enrollment.

CATEGORIES OF RECORDS IN THE SYSTEM:

- Name;
- Member identification number;
- Address;
- Birth date;
- Phone number;
- Auxiliary qualifications information (formal designations in program disciplines that result from successful completion of training regimens, for example: class instructor, vessel examiner, boat coxswain, and certifications and licenses);
- Auxiliary activities information (patrols conducted, classes taught); and
- Information on facilities (boats, radio stations or aircraft-owned by Auxiliarists as well as facility identification numbers (e.g., boat license number).

In addition to those disclosures generally permitted under 5 U.S.C. 552a(b) of the Privacy Act, all or a portion of the records or information contained in this system may be disclosed outside DHS as a routine use pursuant to 5 U.S.C. 552a(b)(3) as follows:
