

A.5: Internal modifications or equipment additions (e.g., computer facilities, relocating interior walls) to structures or buildings.

A.6: Construction of buried and aerial telecommunications lines, cables, and related facilities.

A.7: Construction of wireless telecommunications facilities involving no more than five acres (2 hectares) of physical disturbance at any single site.

A.8: Construction of cooperative or company headquarters, maintenance facilities, or other buildings involving no more than 10 acres (4 hectares) of physical disturbance or fenced property.

A.9: Changes to existing transmission lines that involve less than 20 percent pole replacement, or the complete rebuilding of existing distribution lines within the same right of way. Changes to existing transmission lines that require 20 percent or greater pole replacement will be considered the same as new construction.

A.10: Changes or additions to existing substations, switching stations, telecommunications switching or multiplexing centers, or external changes to buildings or small structures requiring one acre (0.4 hectare) or more but no more than five acres (2 hectares) of new physically disturbed land or fenced property.

A.16: Studies and engineering undertaken to define proposed actions or alternatives sufficiently so that environmental effects can be assessed.

A.17: Rebuilding of power lines or telecommunications cables where road or highway reconstruction requires the applicant to relocate the lines either within or adjacent to the new road or highway easement or right-of-way.

A.18: Phase or voltage conversions, reconducting or upgrading of existing electric distribution lines, or telecommunication facilities.

A.19: Construction of standby diesel electric generators (one megawatt or less total capacity) and associated facilities, for the primary purpose of providing emergency power at an existing applicant headquarters

## Appendix D

### EXTRAORDINARY CIRCUMSTANCES

Extraordinary circumstances that may preclude the use of a CE include:

(a) Reasonable likelihood of significant impact on public health or safety.

(b) Reasonable likelihood of significant environmental effects (direct, indirect, and cumulative)

(c) Reasonable likelihood of effects on the environment that are highly uncertain, unique, or are scientifically controversial.

(d) Reasonable likelihood of violating any federal, state, or local law or requirements imposed for the protection of the environment.

(e) Reasonable likelihood of adversely affecting "environmentally sensitive" resources, unless the impact has been resolved through another environmental process (e.g., Coastal Zone Management Act, Clean Air Act, Clean Water Act).

Environmentally sensitive resources may include:

1. Proposed or federally listed threatened or endangered species, or their designated critical habitat (including species and habitat listed under the Endangered Species Act of 1973 (16 U.S.C. § 1531 *et seq.*); Migratory Bird Treaty Act of 1918 (16 U.S.C. § 703 *et seq.*) and Bald and Golden Eagle Act of 1940, (16 U.S.C. § 668 *et seq.*).

2. Areas having special designation or recognition such as prime or unique or agricultural lands; designated wilderness or wilderness study areas; wild and scenic rivers; 100-year or 500-year floodplains; wetlands; sole source aquifers (potential sources of drinking water); National Wildlife Refuges; National Parks; areas of critical environmental concern; or other areas of high environmental sensitivity.

(f) Reasonable likelihood of adversely impacting water quality, sole source aquifers, public water supply systems, or state, local, or tribal water quality standards established under the Clean Water Act and the Safe Drinking Water Act.

(g) Reasonable likelihood of effects on the quality of the environment that are highly controversial on environmental grounds. The term "controversial" means a substantial dispute exists as to the size, nature, or effect of the proposed action rather than to the existence of opposition to a proposed action, the effect of which is relatively undisputed.

(h) Reasonable likelihood of a disproportionately high and adverse effect on low income populations or minority populations.

(i) Limited access to and ceremonial use of Indian sacred sites on federal lands by Indian religious practitioners or significantly adversely affect the physical integrity of such sacred sites.

(j) A greater scope or size than is normal for this category of action.

(k) Reasonable likelihood of degrading already existing poor environmental conditions. Also, initiation of a degrading

influence, activity, or effect in areas not already significantly modified from their natural condition.

(l) Introduction or employment of unproven technology.
