

requirements for a project receiving Department of Commerce (DOC) bureau-level funding, DOC must assess information which can only be provided by the applicant for federal financial assistance (grant). These include mainly grants to applicants for federal assistance and federal entities proposing construction or infrastructure projects. NEPA requires that a number of items be considered prior to funding and conducting any activity.

The Environmental Questionnaire and Checklist (EQC) provides federal financial assistance applicants and DOC staff with a tool to ensure that the necessary project and environmental information is obtained. The EQC was developed to collect data concerning potential environmental impacts and help educate the Federal reviewer about the project, streamline the collection of data, and maintain consistency in quality and quantity of information received. The EQC will allow for a more rapid review of infrastructure projects and facilitate DOC in evaluating the potential environmental impacts of a project and level of NEPA required. DOC staff will use the information provided in answers to the questionnaire to determine compliance requirements for NEPA and conduct subsequent NEPA analysis as needed. Information provided in the questionnaire may also be used for other regulatory review requirements associated with the proposed project, such as the National Historic Preservation Act.

Revision: The checklist is being revised to improve understanding and clarity of the questions.

Affected Public: \$1,000 in miscellaneous costs (\$5 x approximately 200 respondents who would mail attachments rather than emailing them).

Frequency: On occasion.

Respondent's Obligation: Required to obtain or maintain benefits.
