TENNESSEE VALLEY AUTHORITY

Review of Floating Houses

AGENCY: Tennessee Valley Authority.

ACTION: Notice of intent.

SUMMARY: The Tennessee Valley Authority (TVA) is conducting a review of the recent growth in the Tennessee River Watershed of floating houses and nonnavigable houseboats designed and used primarily for human habitation and potential management actions TVA may take in response to the proliferation of these structures. As part of the study, TVA intends to prepare an environmental assessment (EA) or environmental impact statement (EIS) to assess the impacts associated with TVA's management and oversight of these structures on its reservoirs. TVA will use the environmental review process to learn the values and concerns of stakeholders; identify issues, trends, events and tradeoffs affecting TVA's policies; formulate, evaluate and compare alternative management options; provide opportunities for public review and comment; and ensure that TVA's evaluation of alternative management and policy strategies reflects a full range of stakeholder input. Public comment is invited concerning the scope of the review and environmental issues that should be addressed. This notice is provided in accordance with the Council on Environmental Quality's regulations (40 CFR parts 1500 to 1508) and TVA's procedures for implementing the National Environmental Policy Act (NEPA).

DATES: Comments must be received on or before July 29, 2014. To facilitate the scoping process, TVA will hold public scoping meetings in May and June 2014; see <http://www.tva.gov/river/floatinghouses.htm> for the dates and locations of scoping meetings. TVA will provide additional opportunities for public involvement upon publication of the draft EA or EIS.

ADDRESSES: Written comments should be sent to Matthew Higdon, NEPA Specialist, Tennessee Valley Authority, 400 West Summit Hill Drive (WT 11D), Knoxville, Tennessee 37902. Comments

may also be entered online at the project Web site at <http://www.tva.gov/river/floatinghouses.htm> or emailed to fh@tva.gov.

FOR FURTHER INFORMATION CONTACT: For general information on the NEPA process, contact Matthew Higdon at the address above, by email at mshigdon@tva.gov, or by phone at (865) 632-8051. For general information on the floating houses review, contact Robert Farrell by email at rgfarrell@tva.gov or by phone at (865) 632-3024.

SUPPLEMENTARY INFORMATION: TVA is a corporate agency and instrumentality of the United States, established by an act of Congress in 1933, to foster the social and economic welfare of the people of the Tennessee Valley region and to promote the proper use and conservation of the region's natural resources. One component of this mission is the operation of the TVA reservoir system to achieve a balance of benefits including energy production, navigation, flood control, recreation, and water supply. TVA operates nine mainstream Tennessee River dams and reservoirs and forty tributary dams and reservoirs in seven states.

TVA has jurisdiction under Section 26a of the TVA Act, 16 U.S.C. 831y-1, to regulate obstructions that affect navigation, flood control, or public lands across, along, or in the Tennessee River or any of its tributaries. In particular, Section 26a of the TVA Act requires that TVA's approval be obtained prior to the construction, operation, or maintenance of any dam, appurtenant works, or other obstruction affecting navigation, flood control, or public lands or reservations. Such obstructions may include boat docks, piers, boathouses, buoys, floats, boat launching ramps, fills, water intakes, devices for discharging effluents, bridges, aerial cables, culverts, pipelines, fish attractors, shoreline stabilization projects, channel excavations, and nonnavigable houseboats (18 CFR 1304.1). In addition to TVA's Section 26a jurisdiction, and the permit conditions issued pursuant to such jurisdiction, TVA has conditions and covenants in approved land use agreements with commercial marina operators and land and shoreline policies that stipulate or restrict how TVA property and shoreline areas can be used.

In recent years, several TVA reservoirs have experienced an accelerated growth of unpermitted, new floating houses designed and used primarily for human habitation at a fixed location rather than for recreational navigation and
