

abstract: The affected public includes STOP formula grantees (50 states, the District of Columbia and five territories (Guam, Puerto Rico, American Samoa, Virgin Islands, Northern Mariana Islands). The STOP Violence Against Women Formula Grant Program was authorized through the Violence Against Women Act of 1994 and reauthorized and amended by the Violence Against Women Act of 2000, the Violence Against Women Act of 2005 and the Violence Against Women Act of 2013. The purpose of the STOP Formula Grant Program is to promote a coordinated, multi-disciplinary approach to improving the criminal justice system's response to violence against women. It envisions a partnership among law enforcement, prosecution, courts, and victim advocacy organizations to enhance victim safety and hold offenders accountable for their crimes of violence against women. The Department of Justice's Office on Violence Against Women (OVW) administers the STOP Formula Grant Program funds which must be distributed by STOP state administrators according to statutory. As a result of VAWA 2013 and the penalty provision of the Prison Rape Elimination Act (PREA), States are required to certify compliance with PREA. If States cannot certify compliance, they have the option of forfeiting five percent of covered funds or executing an assurance that five percent of covered funds will be used towards coming into compliance with PREA.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* It is estimated that it will take the approximately 56 respondents (state administrators from the STOP Formula Grant Program) 10 minutes to complete a Certification of Compliance with the Statutory Eligibility Requirements of the Violence Against Women Act, as amended and the Prison Rape Elimination Act.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total annual hour burden to complete the Certification is less than 10 hours.

Overview of This Information Collection

1. *Type of Information Collection:* New Collection.

2. *The Title of the Form/Collection:* OVW Peer Reviewer Database.

3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* The form number is 1122-XXXX. The applicable component within the Department of Justice is the Office on Violence Against Women.

4. *Affected public who will be asked or required to respond, as well as a brief abstract:* The affected public includes individuals whom OVW has identified as potential peer reviewers and invited to submit information to the Peer Reviewer Database. Every year, OVW posts solicitations for numerous grant programs authorized by the Violence Against Women Act to enable communities to increase their capacity to respond to crimes of domestic violence, dating violence, sexual assault, and stalking. In order to carefully consider which grant applications to recommend for funding, OVW assembles peer review panels comprised of experts and practitioners to help evaluate and score grant applications based on the requirements outlined in the different solicitations for the OVW grant programs. OVW assembles peer review panels by inviting experts and practitioners to serve as peer reviewers. Participation in the peer review program is completely voluntary; however, in order to be considered a peer reviewer, the prospective reviewer must enroll in the Database by entering their information online (contact information, resume/curriculum vitae (CV), and other self-identified information, such as employee type, education levels, job categories, ethnicity, expertise areas, and availability). A reviewer can only access, view, and modify their own individual record. OVW staff can access the Database to perform searches and review peer reviewer profiles in order to select an individual to review

applications for a particular OVW grant program.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* An estimated 200 individuals participate in the OVW Peer Reviewer Database.

6. *An estimate of the total public burden (in hours) associated with the collection:* The estimated public burden associated with this collection is 15 minutes. It is estimated that respondents will take less than 15 minutes to complete periodic and infrequent submissions and updates to the database. The burden hours for collecting respondent data is 50 hours (200 respondents × .25 hours = 50 hours).
