A. Overview of Information Collection

Title of Information Collection: Housing Search Process for Racial/Ethnic Minorities.
Type of Request: New.
OMB Approval Number: N/A.
Form Number: None.
Description of the need for the information and proposed use: It has suspected that differences between the

rental housing search process employed by racial and ethnic minorities and other populations may have significant consequences for the housing opportunities available to minority households and the strategies needed to combat racial and ethnic discrimination. This is an exploratory inquiry into a topic that is not well understood and has not been a well-developed research topic. The findings of this study will help guide research toward a more comprehensive understanding of the rental housing search processes of individual households and will inform development of more effective enforcement strategies to combat discriminatory practices and will indicate ways to expand housing opportunities for racial and ethnic minorities.

Respondents: Recent movers and current housing searchers in large scale cognitive testing and a limited number of in-depth interviews of some members of the testing group.

Information collection	Number of respondents	Frequency of response	Responses per annum	Burden hour per response	Annual burden hours	Hourly cost per response	Annual cost

Total	986 (700-Unique)	482.37	0	0

There are no capital/start-up or ongoing operation/maintenance cost to respondent or record keepers associated with this data collection.

SUPPLEMENTARY INFORMATION: This notice announces our active review of the short-tailed albatross (*Phoebastria albatrus*), which is currently listed as Endangered under the Endangered Species Act. The final listing rule for the short-tailed albatross was published on July 31, 2000 (65 FR 46644). A recovery plan for the short-tailed albatross was completed in September 2008 and is available at http://alaska.fws.gov/fisheries/Endangered/pdf/stal_recovery_plan.pdf.

Why do we conduct a 5-year review?

Under the Act (16 U.S.C. 1531 *et seq.*), we maintain Lists of Endangered and Threatened Wildlife and Plants (which we collectively refer to as the List) in the Code of Federal Regulations (CFR) at 50 CFR 17.11 (for animals) and 17.12 (for plants). Section 4(c)(2) of the Act requires us to review each listed species' status at least once every 5 years. Our regulations at 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing those species that are under active review.

For additional information about 5-year reviews, refer to our factsheet at

<http://www.fws.gov/Endangered/what-we-do/recovery-overview.html>.

What information do we consider in our review?

A 5-year review considers all new information available at the time of the review. In conducting these reviews, we consider the best scientific and commercial data that have become available since the listing determination or most recent status review, such as:

(A) Species biology, including but not limited to population trends, distribution, abundance, demographics, and genetics;

(B) Habitat conditions, including but not limited to amount, distribution, and suitability;

(C) Conservation measures that have been implemented that benefit the species;

(D) Threat status and trends in relation to the five listing factors (as defined in section 4(a)(1) of the Act); and

(E) Other new information, data, or corrections, including but not limited to taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.

Any new information will be considered during the 5-year review and will also be used to evaluate the ongoing recovery programs for the species.

Request for Information

To ensure that a 5-year review is complete and based on the best available scientific and commercial information, we request new information from all sources. See “What information do we consider in our review?” for specific criteria. If you submit information, please support it with documentation such as maps, bibliographic references, methods used to gather and analyze the data, and/or copies of any pertinent publications, reports, or letters by knowledgeable sources.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Comments and materials received will be available for public inspection, by appointment, during normal business

hours at the offices where the comments are submitted.
