

—Earth Science Integration

Attendees will be requested to sign a register and to comply with NASA security requirements, including the presentation of a valid picture ID to Security before access to NASA Headquarters. Foreign nationals attending this meeting will be required to provide a copy of their passport and visa in addition to providing the following information no less than 10 working days prior to the meeting: full name; gender; date/place of birth; citizenship; visa information (number, type, expiration date); passport information (number, country, expiration date); employer/affiliation information (name of institution, address, country, telephone); title/position of attendee; and home address to Ann Delo via email at ann.b.delo@nasa.gov or by fax at (202) 358-2779.

U.S. citizens and Permanent Residents (green card holders) are requested to submit their name and affiliation 3 working days prior to the meeting to Ann Delo.

It is imperative that the meeting be held on this date to accommodate the scheduling priorities of the key participants.

Patricia D. Rausch,

*Advisory Committee Management Officer,
National Aeronautics and Space
Administration.*

BILLING CODE 7510-13-P

NATIONAL SCIENCE FOUNDATION

Comment Request: National Science Foundation Proposal/Award Information—NSF Proposal and Award Policies and Procedures Guide

AGENCY: National Science Foundation.

ACTION: Request for Comment Notice.

SUMMARY: The National Science Foundation (NSF) is announcing plans to request renewed clearance of this collection. The primary purpose of this revision is to implement 2 CFR part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance). NSF has requested and received from the Office of Management and Budget (OMB) approval to implement the Uniform Guidance through NSF's longstanding practice of implementing these requirements via use of a policy rather than regulation. In conjunction with the terms and conditions of the award, the Proposal and Award Policies and Procedures Guide (PAPPG), and its predecessors, have served as NSF's

implementation vehicle for OMB Circular A-110 since its initial issuance in 1976. The draft NSF PAPPG is now available for your review and consideration on the NSF Web site at <http://www.nsf.gov/bfa/dias/policy/>.

To facilitate review, text has been highlighted in yellow throughout the document that implements the Uniform Guidance. Inclusion of this highlighting appears in the following cases:

- Use of specific references to the Uniform Guidance;
- Direct replication of text from the Uniform Guidance; and
- NSF's implementation of requirements from the Uniform Guidance that are imposed on agencies.

NSF is formally requesting deviations from OMB from the Uniform Guidance in only two areas:

- Limitation to two months salary compensation for faculty; and
- Alternative to the Federal Financial Report. Also highlighted throughout are policy changes that are being made independent of the Foundation's implementation of the Uniform Guidance. These changes are highlighted in blue.

In accordance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, we are providing opportunity for public comment on the PAPPG. NSF is particularly interested in public comment on NSF's implementation of 2 CFR part 200, as well as the policy changes that are identified in the PAPPG. Comments regarding the content of 2 CFR part 200 should not be submitted, as the Uniform Guidance was formally issued by OMB as final guidance on December 26, 2013 (see <http://www.gpo.gov/fdsys/pkg/FR-2013-12-26/pdf/2013-30465.pdf>). After obtaining and considering public comment, NSF will prepare the submission requesting OMB clearance of this collection for no longer than 3 years.

In addition to the type of comments identified above, comments also are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on respondents, including through the use

of automated collection techniques or other forms of information technology.

DATES: Written comments should be received by July 8, 2014 to be assured of consideration. Comments received after that date will be considered to the extent practicable.

ADDRESSES: Written comments regarding the information collection and requests for copies of the proposed information collection request should be addressed to Suzanne Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Blvd., Rm. 295, Arlington, VA 22230, or by email to splimpto@nsf.gov. The draft NSF Proposal and Award Policies and Procedures Guide may be found at: <http://www.nsf.gov/bfa/dias/policy/>.

FOR FURTHER INFORMATION CONTACT: Suzanne Plimpton on (703) 292-7556 or send email to splimpto@nsf.gov.

Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays).

SUPPLEMENTARY INFORMATION:

Title of Collection: "National Science Foundation Proposal/Award Information—NSF Proposal and Award Policies and Procedures Guide".

OMB Approval Number: 3145-0058.

Expiration Date of Approval: July 31, 2015.

Type of Request: Intent to seek approval to extend with revision an information collection for three years.

Proposed Project: The National Science Foundation Act of 1950 (Pub. L. 81-507) sets forth NSF's mission and purpose:

To promote the progress of science; to advance the national health, prosperity, and welfare; to secure the national defense. . . .

The Act authorized and directed NSF to initiate and support:

- Basic scientific research and research fundamental to the engineering process;
- Programs to strengthen scientific and engineering research potential;
- Science and engineering education programs at all levels and in all the various fields of science and engineering;
- Programs that provide a source of information for policy formulation; and
- Other activities to promote these ends.

NSF's core purpose resonates clearly in everything it does: Promoting achievement and progress in science and engineering and enhancing the potential for research and education to

contribute to the Nation. While NSF's vision of the future and the mechanisms it uses to carry out its charges have evolved significantly over the last six decades, its ultimate mission remains the same.

Use of the Information: The regular submission of proposals to the Foundation is part of the collection of information and is used to help NSF fulfill this responsibility by initiating and supporting merit-selected research and education projects in all the scientific and engineering disciplines. NSF receives more than 50,000 proposals annually for new projects, and makes approximately 11,000 new awards.

Support is made primarily through grants, contracts, and other agreements awarded to approximately 2,000 colleges, universities, academic consortia, nonprofit institutions, and small businesses. The awards are based mainly on merit evaluations of proposals submitted to the Foundation.

The Foundation has a continuing commitment to monitor the operations of its information collection to identify and address excessive reporting burdens as well as to identify any real or apparent inequities based on gender, race, ethnicity, or disability of the proposed principal investigator(s)/project director(s) or the co-principal investigator(s)/co-project director(s).

Burden on the Public: The Foundation estimates that an average of 120 hours is expended for each proposal submitted. An estimated 50,000 proposals are expected during the course of one year for a total of 6,000,000 public burden hours annually.

Dated: May 6, 2014.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555-01-P

NATIONAL SCIENCE FOUNDATION

Notice of Intent To Seek Approval To Extend a Current Information Collection

AGENCY: National Science Foundation.

ACTION: Notice and request for comments.

SUMMARY: The National Science Foundation (NSF) is announcing plans to request renewal of this collection. In accordance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 (Pub. L. 104-13), we are providing opportunity for public

comment on this action. After obtaining and considering public comment, NSF will prepare the submission requesting that OMB approve clearance of this collection for no longer than 3 years.

DATES: Written comments on this notice must be received by July 8, 2014 to be assured of consideration. Comments received after that date will be considered to the extent practicable.

For Additional Information or Comments: Contact Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 1265, Arlington, Virginia 22230; telephone 703-292-7556; or send email to splimpto@nsf.gov. You also may obtain a copy of the data collection instrument and instructions from Ms. Plimpton. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including Federal holidays).

SUPPLEMENTARY INFORMATION:

Title of Collection: Graduate Research Fellowship Application.

OMB Approval Number: 3145-0023.

Expiration Date of Approval: September 30, 2017.

Type of Request: Intent to seek approval to extend with revision an information collection for three years.

Abstract: Section 10 of the National Science Foundation Act of 1950 (42 U.S.C. 1861 et seq.), as amended, states that "The Foundation is authorized to award, within the limits of funds made available * * * scholarships and graduate fellowships for scientific study or scientific work in the mathematical, physical, biological, engineering, social, and other sciences at accredited U.S. institutions selected by the recipient of such aid, for stated periods of time."

The Graduate Research Fellowship Program has two goals:

- To select, recognize, and financially support individuals early in their careers with the demonstrated potential to be high achieving scientists and engineers;
- To broaden participation in science and engineering of underrepresented groups, including women, minorities, persons with disabilities, and veterans.

The list of GRFP Fellows sponsored by the Foundation may be found via FastLane through the NSF Web site: <http://www.fastlane.nsf.gov>. The GRF Program is described in the Solicitation available at: <http://www.nsf.gov/pubs/2013/nsf13584/nsf13584.pdf>.

Estimate of Burden: This is an annual application program providing three

years of support to individuals, usable over a five-year fellowship period. The application deadline is in early November. It is estimated that each submission is averaged to be 16 hours per respondent, which includes three references (on average) for each application. It is estimated that it takes two hours per reference for each applicant.

Respondents: Individuals.

Estimated Number of Responses: 15,000.

Estimated Total Annual Burden on Respondents: 240,000 hours.

Frequency of Responses: Annually.

Comments: Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Dated: May 6, 2014.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.
