III. Description of Program and Potential Disclosure of Information Claimed as CBI to Contractors

The RFS program as established by the Energy Policy Act of 2005 and amended by the Energy Independence and Security Act of 2007 exempted small refineries from the renewable fuel standards through December 31, 2010. After this initial period, the statute

allows that small refineries may, on a case-by-case basis, petition the EPA for an extension of their exemption. The EPA may approve such petitions if it finds that disproportionate economic hardship exists. The EPA continues to implement these provisions. In evaluating such petitions, the EPA must consult with the Department of Energy (DOE), and must consider the findings of the DOE study required under CAA 211(o)(9)(A)(i)(I) and other economic factors. Historically, companies seeking a small refinery exemption have claimed their petitions to be CBI. Information submitted under such a claim is handled in accordance with the EPA's regulations at 40 CFR part 2, subpart B and in accordance with EPA procedures, including comprehensive system security plans (SSPs) that are consistent with those regulations. When the EPA has determined that disclosure of information claimed as CBI to contractors is necessary, the corresponding contract must address the appropriate use and handling of the information by the contractor and the contractor must require its personnel who require access to information claimed as CBI to sign written non-disclosure agreements before they are granted access to data.

In accordance with 40 CFR 2.301(h), we have determined that the contractor listed below requires access to CBI submitted to the EPA under the Clean Air Act and in connection with the RFS program (40 CFR part 80, Subpart M). We are issuing this **Federal Register** notice to inform all affected submitters of information that we plan to grant access to material that may be claimed as CBI to the contractors identified below on a need-to-know basis.

Under DOE Contract Number DE-BP0003293, Stillwater Associates, 3 Rainstar, Irvine, California 92614, has provided and will continue to provide technical support that involves access to information claimed as CBI related to 40 CFR Part 80, Subpart M. Access to data, including information claimed as CBI, will commence immediately upon publication of this notice in the **Federal Register** and will continue indefinitely

as the Agency expects to receive additional petitions for small refinery exemptions for future annual program compliance periods. If the contract is extended, this access will continue for the remainder of the contract without further notice.

Parties who wish further information about this **Federal Register** notice or about OTAQ's disclosure of information claimed as CBI to contactors may contact the person listed under **FOR FURTHER INFORMATION CONTACT**.
