**SUPPLEMENTARY INFORMATION:** This ICR seeks to PRA authority for the Workforce Innovation Fund (WIF) Grants Reporting and Recordkeeping Requirements information collection. This proposed information collection features quarterly performance narrative reports that document the innovative strategies and collect information about effective practices and lessons learned from the diverse projects funded by the WIF. All data collection and reporting is done by grantee organizations (State or local governments). The proposed performance reporting requirements align with outcome categories identified in the Solicitation for Grant

Applications used to award the WIF grants. The quarterly performance narrative reports provide a detailed account of program activities, accomplishments, and progress toward performance outcomes during the quarter. Specifically, these reports include aggregate information on participants’ grant progress and accomplishments, grant challenges, grant technical assistance needs and success stories and lessons learned. The performance outcomes are defined by each grantee. Each grant has a unique set of performance goals and outcome measures according to the specific innovation and project being pursued in the grant. The performance narrative reports, to be completed quarterly, include a narrative of grant activities and the unique grant performance and evaluation measures and key project milestones identified by the grantees. As a result, the specific performance measures for each grant may be different.

This proposed information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information if the collection of information does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. For additional information, see the related notice published in the **Federal Register** on January 31, 2014 (79 FR 5459).

In order to help ensure appropriate consideration, comments should mention OMB ICR Reference Number 201402-1205-001. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
