1. In the *USF/ICC Transformation Order*, the Commission delegated to the Wireline Competition Bureau (Bureau) the authority to make any rule revisions necessary to ensure that the reforms adopted by the Commission are properly reflected in the rules, including correction of any conflicts between the new or revised rules and addressing of any omissions or oversights. In this Order, the Bureau acts pursuant to its delegated authority to clarify and correct certain rules relating to implementation of the intercarrier compensation (ICC) transition adopted in the *USF/ICC Transformation Order*. Specifically, the Bureau clarifies language in sections 51.907 and 51.909 to reflect ongoing rate parity in the transition process for price cap and rate-of-return local exchange carriers (LECs), consistent with the intent of the *USF/ICC Transformation Order*. The Bureau also clarifies certain aspects of the Commission's rules

relating to the transition of terminating end office access rates and the calculation of Eligible Recovery for price cap and rate-of-return carriers beginning in 2014. Finally, the Bureau clarifies issues related to duplicative recovery and the true-up of regulatory fees and revenue calculations.

II. Background

2. The *USF/ICC Transformation Order* adopted, among other things, an ICC reform timeline including rules that require carriers to adjust, over a period of years, many of their legacy ICC rates effective on July 1 of each of those years, with the ultimate goal of transitioning to a bill-and-keep regime. The Commission also adopted a recovery mechanism to mitigate the impact of reduced ICC revenues on carriers and to facilitate continued investment in broadband infrastructure while providing greater certainty and predictability going forward. The recovery mechanism allows incumbent LECs to recover ICC revenues reduced due to the ICC reforms, up to an amount defined for each year of the transition, which is referred to as "Eligible Recovery." A carrier may recover a limited portion of its Eligible Recovery each year from its end users through a fixed monthly charge called the Access Recovery Charge (ARC), and the remainder of its Eligible Recovery for the year, if it so elects, from Connect America Fund ICC support.

3. The Bureau previously clarified and corrected several rules adopted in the *USF/ICC Transformation Order* in response to requests for clarification or correction in prior years. In this Order, we clarify and correct several rules pertaining to future filings that price cap and rate-of-return carriers will make in the 2014 annual access charge tariff filings and beyond.

III. Discussion

A. Rate Parity for Interstate and Intrastate Terminating End Office Access Service

4. In 2013, both price cap and rate-of-return regulated incumbent LECs were required to reduce certain intrastate switched access rates that exceeded comparable interstate switched access rates to interstate rate levels using the interstate rate structure. Carriers whose intrastate switched access rates were below comparable interstate rates generally were not allowed to increase such rates. Beginning in 2014, price cap carriers must reduce terminating switched end office and reciprocal compensation rates "by one-third of the differential between end office rates and
