WTO Agricultural Quantity-Based Safeguard Trigger Levels

AGENCY: Foreign Agricultural Service, U.S. Department of Agriculture.

ACTION: Notice of product coverage and trigger levels for safeguard measures provided for in the World Trade Organization (WTO) Agreement on Agriculture.

SUMMARY: This notice lists the updated quantity-based trigger levels for products which may be subject to additional import duties under the safeguard provisions of the WTO Agreement on Agriculture. This notice also includes the relevant period applicable for the trigger levels on each of the listed products.

DATES: May 20, 2014.

FOR FURTHER INFORMATION CONTACT: Souleymane Diaby, International Trade Specialist, Import Policies and Export Reporting Division, Office of Trade

Programs, Foreign Agricultural Service, U.S. Department of Agriculture, Stop 1021, 1400 Independence Avenue SW., Washington, DC 20250–1021; by telephone (202) 720–2916; by fax (202) 720–0876; or by email Souleymane.Diaby@fas.usda.gov.

SUPPLEMENTARY INFORMATION: Article 5 of the WTO Agreement on Agriculture provides that additional import duties may be imposed on imports of products subject to tariffication as a result of the Uruguay Round, if certain conditions are met. The agreement permits additional duties to be charged if the price of an individual shipment of imported products falls below the average price for similar goods imported during the years 1986–88 by a specified percentage. It also permits additional duties to be imposed if the volume of imports of an article exceeds the average of the most recent 3 years for which data are available by 5, 10, or 25 percent, depending on the article. These additional duties may not be imposed on quantities for which minimum or current access commitments were made during the Uruguay Round negotiations, and only one type of safeguard, price or quantity, may be applied at any given time to an article.

Section 405 of the Uruguay Round Agreements Act requires that the President cause to be published in the **Federal Register** information regarding the price and quantity safeguards, including the quantity trigger levels, which must be updated annually based

upon import levels during the most recent 3 years. The President delegated this duty to the Secretary of Agriculture in Presidential Proclamation No. 6763, dated December 23, 1994, 60 FR 1005 (Jan. 4, 1995). The Secretary of Agriculture further delegated this duty, which lies with the Administrator of the Foreign Agricultural Service (7 *CFR* 2.43(a)(2)). The Annex to this notice contains the updated quantity trigger levels.

Additional information on the products subject to safeguards and the additional duties which may apply can be found in subchapter IV of Chapter 99 of the Harmonized Tariff Schedule of the United States (2014) and in the Secretary of Agriculture’s Notice of Uruguay Round Agricultural Safeguard Trigger Levels, published in the **Federal Register** at 60 *FR* 427 (Jan. 4, 1995).

Notice: As provided in Section 405 of the Uruguay Round Agreements Act, consistent with Article 5 of the WTO Agreement on Agriculture, the safeguard quantity trigger levels previously notified are superceded by the levels indicated in the Annex to this notice. The definitions of these products were provided in the Notice of Safeguard Action published in the **Federal Register**, at 60 *FR* 427 (Jan. 4, 1995).

Issued at Washington, DC, this 25th day of April, 2014.

Suzanne Palmieri,

Acting Administrator, Foreign Agricultural Service.

BILLING CODE 3410-10-P

DEPARTMENT OF AGRICULTURE**Forest Service****Mendocino National Forest; Upper Lake Ranger District; California; Pine Mountain Late-Successional Reserve Habitat Protection and Enhancement Project****AGENCY:** Forest Service, USDA.**ACTION:** Notice of Intent to Prepare an Environmental Impact Statement.

SUMMARY: The Mendocino National Forest, Upper Lake Ranger District, proposes to conduct fuels reduction and habitat enhancement treatments on approximately 7,830 acres southwest of Lake Pillsbury in the Pine Mountain vicinity. The Planning Area is 10,200 acres in size and comprises both Late Successional Reserve (LSR) and Matrix land designations. Of the approximately 7,830 acres to be treated, ~5690 acres are within the Pine Mountain LSR and ~2,140 acres are in Matrix lands. The

project emphasizes fuel reduction activities and habitat management for the protection and enhancement of late-successional species. The project area was chosen for treatment based on past fire history and the existing conditions that pose a threat to late-successional habitat.

The Pine Mountain LSR is one of the smaller LSRs within the Forest and provides a link between the Blue Slides LSR seven miles to the southeast and the Sanhedrin LSR, 1.25 miles to the north. This LSR also provides a critical link to State and other Federal lands to the south and west. This area is currently part of Northern Spotted Owl Critical Habitat (Unit 11, Subunit ICC 5), a designated land allocation by U.S. Fish and Wildlife Service, and also includes 1.6 miles of critical habitat for anadromous fish. These habitats are located within both the LSR and matrix lands. The Project Area is located approximately 15 miles north of the town of Upper Lake, primarily in T18N, R10W, and portions of T18N, R11W; T17N, R10W; and T17N, R11W, Mount Diablo Base Meridian.

DATES: Comments concerning the scope of the analysis must be received by June 19, 2014. The draft environmental impact statement is expected in August 2014 and the final environmental impact statement is expected in December 2014.

ADDRESSES: Send written comments to Forest Supervisor, 825 N. Humboldt Avenue, Willows, CA 95988. Comments may also be sent via email to comments-pacificsouthwest-mendocino@fs.fed.us, or via facsimile to (530) 934-7384.

A public meeting will be held on May 30, 2014 to enable those with interest in the project to obtain more information, ask questions, and make comments for the development of the EIS and the alternatives. A field trip the following day may be held if enough interest is shown.
