Executive Order 13175, Consultation and Coordination With Indian Tribal Governments

This executive order imposes requirements on RHS in the development of regulatory policies that have tribal implications or preempt tribal laws. RHS has determined that the proposed rule does not have a substantial direct effect on one or more Indian tribe(s) or on either the relationship or the distribution of powers and responsibilities between the Federal Government and the Indian tribes. Thus, this proposed rule is not subject to the requirements of Executive Order 13175.

Regulatory Flexibility Act

This rule has been reviewed with regard to the requirements of the Regulatory Flexibility Act (5 U.S.C. 601–612). The undersigned has determined and certified by signature of this document that this rule will not have a significant economic impact on a substantial number of small entities. This rule corrects a requirement on Agency borrowers. Information collection or regulatory requirements are not imposed on small entities under this proposed rule.

Executive Order 13132—Federalism

The policies contained in this proposed rule do not have any substantial direct effect on States, the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government. Nor does this proposed rule impose substantial direct compliance costs on State and local Governments. Therefore, consultation with the States is not required.

Background

The Agency uses payment subsidies to enhance an applicant's repayment ability for section 502 direct single family housing loans. RHS administrators three types of payment subsidies: interest credit, payment assistance method 1 and payment assistance method 2. The eligibility requirements and calculation methods for payment subsidies are located in 7 CFR 3550.68.

When the final rule that introduced payment assistance method 2 at 7 CFR 3550.68(c)(1) was published in the

Federal Register on December 27, 2007 (72 FR 73252) with an effective date of April 1, 2008, the language on calculating payment assistance method 1 in 7 CFR 3550.68(c)(2) was inadvertently modified. The language was inadvertently changed from “The amount of payment assistance granted is the difference between the installment due on the promissory note and the greater of the payment amortized at the equivalent interest rate or the payment calculated based on the required floor payment” to “The amount of payment assistance granted is the difference between the annualized note rate installment as prescribed on the promissory note and the lesser of . . . (i) The floor payment . . . or (ii) The annualized note rate installment and the payment at the equivalent interest rate . . .” (emphasis added). In addition, the sentence stated “In leveraging situations, the equivalent interest rate will be used” was inadvertently omitted. RHS proposes to correct these inadvertent changes.

I. Background on the Missouri Program

Section 503(a) of the Act permits a State to assume primacy for the regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its program includes, among other things, “. . . State law which provides for the regulation of surface coal mining and reclamation operations in accordance with the requirements of this Act . . . ; and rules and regulations consistent with regulations issued by the Secretary pursuant to this Act.” See 30 U.S.C. 1253(a)(1) and (7). On the basis of these criteria, the Secretary of the Interior conditionally approved the Missouri program on November 21, 1980. You can find background information on the Missouri program, including the Secretary’s findings, the disposition of

comments, and conditions of approval, in the November 21, 1980, **Federal Register** (45 FR 77027). You can also find later actions concerning the Missouri program and program amendments at 30 CFR 925.10, 925.12, 925.15, and 925.16.

II. Description of the Proposed Amendment

By letter dated February 18, 2014 (Administrative Record No. MO-679), Missouri sent us an amendment to its program under SMCRA (30 U.S.C. 1201 *et seq.*). Missouri submitted the proposed amendment in response to a September 30, 2009, letter (Administrative Record No. MO-670A) that OSMRE sent to Missouri in accordance with 30 CFR 732.17(c) and to improve operational efficiency. Below is a summary of Missouri’s proposed changes. The full text of the program amendment is available for you to read at the locations listed above under **ADDRESSES** or at www.regulations.gov.

Missouri proposes to make changes to its Code of State Regulations at Title 10, Division 40 (10 CSR 40) in the following chapters:

A. For Permitting Requirements for Surface and Underground Coal Mining and Reclamation Operations and Coal Exploration: Chapter 6.030, 6.070 and 6.100

Adds “suspension” to the section title of (11)(B), Rescission Procedures and throughout the section. Adds posting requirements for the notice of proposed suspension and rescission. Changes the time frame for the suspension notice from “not to exceed ninety (90) days . . .” to “will provide sixty (60) days notice . . .”

The public hearing will continue on the specified date until everyone scheduled to speak has been given an opportunity to be heard. If you are in the audience and have not been scheduled to speak and wish to do so, you will be allowed to speak after those who have been scheduled. We will end the hearing after everyone scheduled to speak and others present in the audience who wish to speak, have been heard.

Public Meeting
