

DEPARTMENT OF HEALTH AND HUMAN SERVICES**National Institutes of Health****National Center for Complementary & Alternative Medicine; Notice of Closed Meeting**

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. App.), notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Center for Complementary and Alternative Medicine Special Emphasis Panel, Training Grants.

Date: June 19, 2014.

Time: 1:00 p.m. to 4:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, Two Democracy Boulevard, Bethesda, MD 20814, (Telephone Conference Call).

Contact Person: Peter Kozel, Ph.D., Scientific Review Officer, NCCAM, 6707 Democracy Boulevard, Suite 401, Bethesda, MD 20892-5475, 301-496-8004, kozelp@mail.nih.gov.

(Catalogue of Federal Domestic Assistance Program Nos. 93.213, Research and Training in Complementary and Alternative Medicine, National Institutes of Health, HHS).

Dated: May 15, 2014.

Michelle Trout,

Program Analyst, Office of Federal Advisory Committee Policy.

Endangered and Threatened Wildlife and Plants; Notice of Availability of the Final Recovery Plan for Golden Sedge (*Carex Lutea*)

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability.

SUMMARY: We, the Fish and Wildlife Service, announce the availability of the final recovery plan for golden sedge (*Carex lutea*), a species endemic to the coastal plain in North Carolina. The final recovery plan includes specific recovery objectives and criteria to be

met in order to downlist this species to threatened status or delist it under the Endangered Species Act of 1973, as amended (Act).

ADDRESSES: You may obtain a copy of the recovery plan by contacting Dale Suiter at the Raleigh Field Office, by U.S. mail at U.S. Fish and Wildlife Service, Raleigh Field Office, 551-F Pylon Drive, Raleigh, North Carolina 27606; or by telephone at (919) 856-4520, extension 18; or by visiting our recovery plan Web site at <http://www.fws.gov/endangered/species/recovery-plans.html>.

FOR FURTHER INFORMATION CONTACT: Dale Suiter, at the above address or by telephone at (919) 856-4520, ext. 18.

SUPPLEMENTARY INFORMATION:

Introduction

We listed golden sedge as an endangered species under the Act (16 U.S.C. 1531 et seq.), on January 23, 2002 (67 FR 3120), and designated critical habitat for the species on March 1, 2011 (76 FR 11086). This species is a rare perennial member of the sedge family (Cyperaceae) endemic to the coastal plain of North Carolina. It is currently known from only 21 occurrences (specific locations or sites) located within a 16 by 5 mile area in Pender and Onslow Counties. All eight populations of this plant occur in the Northeast Cape Fear River watershed in North Carolina.

Factors contributing to its endangered status are an extremely limited range and loss of habitat. The primary threat is the loss or alteration of habitat, from fire suppression; residential, commercial, or industrial development; mining; livestock grazing; and woody or invasive species encroachment.

Background

Restoring an endangered or threatened animal or plant to the point where it is again a secure, self-sustaining member of its ecosystem is a primary goal of the endangered species program. To help guide the recovery effort, we are preparing recovery plans for most listed species. Recovery plans describe actions considered necessary for conservation of the species, establish criteria for downlisting or delisting, and estimate time and cost for implementing recovery measures.

The Act requires the development of recovery plans for listed species, unless such a plan would not promote the conservation of a particular species. Section 4(f) of the Act requires us to provide a public notice and an opportunity for public review and comment during recovery plan development.

Recovery Plan Specifics

The objective of this plan is to provide a framework for the recovery of golden sedge so that protection under the Act is no longer necessary. The draft of this recovery plan was available for public comment from June 18, 2013, through August 19, 2013 (78 FR 36566). We considered the information received via public comments as well as from peer reviewers in our preparation and approval of this final recovery plan. We also edited some sections of the draft recovery plan to reflect these comments; however, no substantial changes were made to the draft recovery plan.

Criteria for Reclassification From Endangered to Threatened

Golden sedge will be considered for reclassification from endangered to threatened status when all of the following criteria are met:

1. There are 10 protected *Carex lutea* sites in the wild that are distributed across the range of the species. [Note: Recovery sites will be considered permanently protected when they are placed under a conservation easement or other binding land agreement and a management agreement, and are ranked as an A or B population by the North Carolina Natural Heritage Program (NCNHP).]

2. On each of the 10 *Carex lutea* sites, for at least 5 years, any non-native plant species that have the potential to displace *Carex lutea* are maintained at or below 10 percent of total number of species and at or below 10 percent cover (volume).

3. All 10 *Carex lutea* sites demonstrate stable or increasing population trends for 5 consecutive years.

4. Habitat management plans are actively being implemented for at least seven of the protected sites.

5. A prescribed fire regime has been developed and is being conducted at all sites to mimic historical frequency and timing (the frequency will be determined through recovery actions in this plan).

We define "protected" to mean the site has been fee-simple acquired and put into long-term conservation by a local or State agency, or that a conservation easement or other binding land agreement has been placed on the site by a landowner that shows a commitment to its conservation in perpetuity and *Carex lutea* from the site is represented in a Center for Plant Conservation (CPC)-approved seed bank. In addition, each site should have a management agreement/plan developed. Prescribed fire should be
