Instructions: All submissions must include the agency name and docket number for this notice. All relevant comments will be posted without change. This means that no confidential business information or other confidential information should be submitted in response to this notice. Refer to the section *Submission of Nominations* (below) for the specific information required.

FOR FURTHER INFORMATION CONTACT: For further information, please contact Commander Jessilyn B. Taylor, Division of Toxicology and Human Health Sciences, 1600 Clifton Rd. NE., MS F-57, Atlanta, Ga. 30333, Email: tpcandidatecomments@cdc.gov; phone: 1-800-232-4636.

SUPPLEMENTARY INFORMATION: The Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended (CERCLA or Superfund) [42 U.S.C. 9601 *et seq.*] establishes certain requirements for ATSDR and the U.S. Environmental Protection Agency (EPA) with regard to hazardous substances most commonly found at facilities on the CERCLA National Priorities List (NPL). Among these statutory requirements is a mandate for the Administrator of ATSDR to prepare toxicological profiles for each substance included on the Priority List of Hazardous Substances. This list identifies 275 hazardous substances that ATSDR and EPA have determined pose the most significant current potential threat to human health. The revised list of the 275 priority substances is available at www.atsdr.cdc.gov/SPL. For prior versions of the list of substances, see www.atsdr.cdc.gov/SPL/resources.

Substances to be Evaluated for Set 28 Toxicological Profiles

Each year, ATSDR develops a list of substances to be considered for toxicological profile development. The Set 28 nomination process includes consideration of all substances on ATSDR's Priority List of Hazardous Substances, also known as the Substance Priority List (SPL), as well as other substances nominated by the public. The 275 substances on the SPL will be considered for Set 28 Toxicological Profile development. This list may be found at the following Web site: www.atsdr.cdc.gov/SPL and in the docket at www.regulations.gov. Existing Toxicological Profiles may be found at the following Web site: [http://](http://www.atsdr.cdc.gov/toxprofiles/index.asp)

www.atsdr.cdc.gov/toxprofiles/index.asp.

Submission of Nominations for the Evaluation of Set 28 Proposed Substances: Today's notice invites voluntary public nominations for substances included on the SPL and for substances not listed on the SPL. All nominations should include the full name of the nominator, affiliation, email address. When nominating a non-SPL substance, please include the rationale for the nomination. Please note that email addresses will not be posted on regulations.gov.

ATSDR will evaluate all data and information associated with nominated substances and will determine the final list of substances to be chosen for toxicological profile development. Substances will be chosen according to ATSDR's specific guidelines for selection. These guidelines can be found in the *Selection Criteria* announced in the **Federal Register** on May 7, 1993 (58FR27286-27287). A hard copy of the selection criteria is available upon request or may be accessed at the following Web site: http://www.atsdr.cdc.gov/toxprofiles/guidance/criteria_for_selecting_tp_support.pdf.

Please ensure that your comments are submitted within the specified nomination period. Nominations received after the closing date will be marked as late and may be considered only if time and resources permit.
