An informal docket may also be examined between 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal Holidays at the office of the Eastern Service Center, Federal Aviation Administration, Room 350, 1701 Columbia Avenue, College Park, Georgia 30337.

Persons interested in being placed on a mailing list for future NPRM's should contact the FAA's Office of Rulemaking, (202) 267-9677, to request a copy of Advisory circular No. 11-2A, Notice of Proposed Rulemaking distribution System, which describes the application procedure.

#### The Proposal

The FAA is considering an amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 to establish Class D airspace within a 4.2-mile radius of Allen C Perkinson Blackstone Army Airfield, Blackstone, VA, and amend existing Class E airspace extending upward from 700 feet above the surface to within a 6.7-mile radius of the airfield, as well as adjust the geographic coordinates of the airfield to be in concert with the FAA's aeronautical database. This action is necessary to support the operation of the new air traffic control tower, and would enhance the safety and management of IFR operations at the airfield.

Class D and E airspace designations are published in Paragraphs 5000 and 6005 respectively, of FAA Order 7400.9X, dated August 7, 2013, and effective September 15, 2013, which is incorporated by reference in 14 CFR 71.1. The Class D and E airspace designations listed in this document will be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an

established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority.

This proposed rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This proposed regulation is within the scope of that authority as it would establish Class D and amend Class E airspace at Allen C Perkinson Blackstone Army Airfield, Blackstone, VA.

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

Persons interested in being placed on a mailing list for future NPRM's should contact the FAA's Office of Rulemaking, (202) 267-9677, to request a copy of Advisory circular No. 11-2A, Notice of Proposed Rulemaking distribution System, which describes the application procedure.

**The Proposal**

The FAA is considering an amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 to establish Class E airspace at Cynthiana, KY, providing the controlled airspace required to support the new RNAV (GPS) standard instrument approach procedures for Cynthiana-Harrison County Airport. Controlled airspace extending upward from 700 feet above the surface is required for IFR operations within a 7.8-mile radius of the airport.

Class E airspace designations are published in Paragraph 6005 of FAA order 7400.9X, dated August 7, 2013, and effective September 15, 2013, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant

rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This proposed rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This proposed regulation is within the scope of that authority as it would establish Class E airspace at Cynthiana-Harrison County Airport, Cynthiana, KY.

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

In the **Federal Register** of February 5, 2014, we published a proposed rule entitled "Sanitary Transportation of Human and Animal Food" with a 115-day comment period on the provisions of the proposed rule and on the information collection provisions that are subject to review by OMB under the Paperwork Reduction Act (44 U.S.C. 3501-3520).

FDA has received requests for an extension of the comment period on the proposed rule. The requests conveyed concern that the current 115-day comment period does not allow time to thoroughly analyze the proposed rule given that the regulations would apply to a diverse array of human foods, animal feed and feed ingredients, and pet food transported by rail and truck. The requests also stated an extended comment period would allow interested persons an opportunity to consider the complexities that affect the interrelated responsibilities of shippers, carriers, and receivers. Finally, the requests stated that additional time is needed to analyze the economic impact on the affected industry sectors and to provide FDA with pertinent information to assist in the economic analysis. FDA has considered the requests and is granting a 60-day extension of the comment period to July 30, 2014, for the "Sanitary Transportation of Human and Animal Food" proposed rule to allow interested persons additional time to submit comments. We also are extending the comment period for the information collection provisions to July 30, 2014, to make the comment period for the information collection provisions the same as the comment period for the provisions of the proposed rule. To clarify, FDA is requesting comment on all issues raised by the proposed rule.

##### II. Paperwork Reduction Act of 1995

Interested persons may either submit electronic comments regarding the information collection to [oin\\_submission@omb.eop.gov](mailto:oin_submission@omb.eop.gov) or fax written comments to the Office of Information and Regulatory Affairs, OMB, Attn: FDA Desk Officer, FAX: 202-395-7285. All comments should be identified with the title "Sanitary Transportation of Human and Animal Food."

##### III. Request for Comments

Interested persons may submit either electronic comments regarding the proposed rule to <http://www.regulations.gov> or written comments to the Division of Dockets Management (see **ADDRESSES**). It is only necessary to send one set of comments. Received comments may be seen in the Division of Dockets Management between 9 a.m. and 4 p.m., Monday through Friday, and will be posted to the docket at <http://www.regulations.gov>.
