SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: With this information collection request (ICR), we are seeking permission to accept production outlook reports from domestic or foreign renewable fuel producers who are not currently regulated parties under the RFS2 program and are, therefore, not required to register or report under the RFS2 regulations. Submission of production outlook information to EPA under this ICR will be on a *voluntary* basis.

The information that respondents provide will allow EPA to more accurately project cellulosic biofuel volumes for the following calendar year, and these volume projections will form the basis of the percentage standards EPA sets under the RFS2 program. Without information from these respondents, EPA's volume projections are more likely to fall below actual projection volumes. Under such circumstances, actual supply for cellulosic biofuel will exceed the demand created by the standards EPA sets, and the value of cellulosic biofuel Renewable Identification Numbers (RINs) will fall. RINs are marketable credits that correspond to a given volume of renewable fuel. Since RIN market price directly affects the economic viability of cellulosic biofuel production, low RIN prices could present economic difficulties to producers. Thus, it is in the interests of these respondents to provide this information to EPA, as doing so could ensure that the market price of RINs

appropriately reflects the value of their cellulosic biofuel. This information also serves a more general program purpose because it will assist EPA in setting the annual RFS2 standards more accurately for biomass-based diesel, advanced biofuel, and total renewable fuel. Compiling this information may also assist respondents with their planning and compliance activities. We believe that many parties would wish to submit this information in order to receive better assistance in understanding and complying with the RFS2 regulations.

Form Numbers: 5900-283 (RFS2 0900 Production Outlook Report).

Respondents/affected entities:

Domestic or foreign renewable fuel producers who are not currently regulated parties under the RFS2 program.

Respondent's obligation to respond: Mandatory.

Estimated number of respondents: 2 (total).

Frequency of response: Yearly.

Total estimated burden: 24 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$2,760 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in Estimates: There is a decrease of 116 hours in the total estimated respondent burden as compared with the ICR currently approved by OMB. The decrease in hours is due to a decrease in the respondent universe based on the reported number of submissions in the DCFUEL database. The number of respondents decreased by 33 per year lowering the total number of reports collected. These decreases have lowered the total burden even though the cost to report per response has risen due to better numbers used to calculate the industry burden and to account for inflation.

Dated: May 16, 2014.

Erin Collard,

Acting Director, Collection Strategies Division.

Massachusetts Marine Sanitation Device Standard—Notice of Determination

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of determination.

SUMMARY: The Regional Administrator of the Environmental Protection Agency (EPA)—New England Region, has determined that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the remaining state coastal waters of the Commonwealth of Massachusetts.

ADDRESSES: *Docket:* All documents in the docket are listed in the www.regulations.gov index. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, will be publicly available only in hard copy. Publicly available docket materials are available electronically in www.regulations.gov.

FOR FURTHER INFORMATION CONTACT: Ann Rodney, U. S. Environmental Protection Agency—New England Region, Office of Ecosystem Protection, Oceans and Coastal Protection Unit, Five Post Office Square, Suite 100, OEP06-1, Boston, MA 02109-3912. Telephone: (617) 918-1538. Fax number: (617) 918-0538. Email address: rodney.ann@epa.gov.

SUPPLEMENTARY INFORMATION: On March 28, 2014, EPA published a notice that the Commonwealth of Massachusetts had petitioned the Regional Administrator, Environmental Protection Agency, to determine that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the remaining coastal waters of Massachusetts. The petition was filed pursuant to Section 312 (f) (3) of Public Law 92-500, as amended by Public Laws 95-217 and 100-4, for the purpose of declaring these waters a No Discharge Area (NDA).

Section 312 (f) (3) states: After the effective date of the initial standards and regulations promulgated under this section, if any State determines that the protection and enhancement of the quality of some or all of the waters within such State require greater environmental protection, such State may completely prohibit the discharge from all vessels of any sewage, whether treated or not, into such waters, except that no such prohibition shall apply until the Administrator determines that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for such water to which such prohibition would apply.

This determination covers three areas: A strip near the state-federal boundary

spanning from Manchester-By-The-Sea to Marshfield, a corridor in Vineyard Sound, and a corridor in Nantucket Sound. The state wide NDA will seamlessly integrate the 20 smaller NDAs that have been designated in Massachusetts since 1991. The boundaries for this statewide NDA encompass all Commonwealth of Massachusetts coastal waters: from mean low water along the coast of Massachusetts, seaward to the state-federal boundary, north to the border with New Hampshire, and south to the border with Rhode Island: <http://www.mass.gov/eea/agencies/czm/program-areas/coastal-water-quality/ndas/>.

Massachusetts has certified that there are a total of 132 pumpout facilities in coastal Massachusetts: <http://www.mass.gov/eea/agencies/czm/program-areas/coastal-water-quality/clean-boating/pumpout-list.html>.

Based on the examination of the petition and its supporting documentation, and information from site visits conducted by EPA New England staff, EPA has determined that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the area covered under this determination. This determination is made pursuant to Section 312 (f) (3) of Public Law 92–500, as amended by Public Laws 95–217 and 100–4.

Dated: May 14, 2014.

H. Curtis Spalding,

Regional Administrator, New England Region.

Human Studies Review Board; Notification of a Public Meeting

AGENCY: U. S. Environmental Protection Agency.

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) Office of the Science Advisor announces a public meeting of the Human Studies Review Board to advise the Agency on the ethical and scientific reviews of EPA research with human subjects.

DATES: This public meeting will be held on June 11, 2014, from approximately 10:30 a.m. to approximately 4:00 p.m. Eastern Time. Comments may be

submitted on or before noon (Eastern Time) on Friday, June 4, 2014.

ADDRESSES: The meeting will be held at the Environmental Protection Agency, Conference Center, Lobby Level, One Potomac Yard (South Bldg.), 2777 S. Crystal Dr., Arlington, VA 22202.

Comments: Submit your written comments, identified by Docket ID No. EPA–HQ–ORD–2014–0411, by one of the following methods:

Internet: <http://www.regulations.gov>: Follow the online instructions for submitting comments.

Email: ORD.Docket@epa.gov.

Mail: The EPA Docket Center EPA/DC, ORD Docket, Mail code: 28221T, 1200 Pennsylvania Avenue NW., Washington, DC 20460.

Hand Delivery: The EPA/DC Public Reading Room is located in the EPA Headquarters Library, Room Number 3334 in the EPA WJC West, at 1301 Constitution Avenue NW., Washington, DC 20460. The hours of operation are 8:30 a.m. to 4:30 p.m. Eastern Time, Monday through Friday, excluding federal holidays. Please call (202) 566–1744 or email the ORD Docket at ord.docket@epa.gov for instructions. Updates to Public Reading Room access are available on the Web site <http://www.epa.gov/epahome/dockets.htm>.

Instructions: The Agency’s policy is that all comments received will be included in the public docket without change and may be made available online at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information or other information the disclosure of which is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through <http://www.regulations.gov> or email. The <http://www.regulations.gov> Web site is an “anonymous access” system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an email comment directly to the EPA without going through <http://www.regulations.gov>, your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, the EPA recommends that you include your name and other contact information in the body of your comment and with any electronic storage media you submit. If the EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, the EPA may not be able to consider your

comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

FOR FURTHER INFORMATION CONTACT: Any member of the public who wishes to receive further information should contact Jim Downing at telephone number (202) 564–2468; fax: (202) 564–2070; email address: downing.jim@epa.gov; mailing address Environmental Protection Agency, Office of the Science Advisor, Mail code 8105R, 1200 Pennsylvania Avenue NW., Washington, DC 20460. General information concerning the EPA HSRB can be found on the EPA Web site at <http://www.epa.gov/hsrb>.

SUPPLEMENTARY INFORMATION:

Meeting access: Seating at the meeting will be on a first-come basis. To request accommodation of a disability, please contact the persons listed under **FOR FURTHER INFORMATION CONTACT** at least ten business days prior to the meeting using the information under **FOR FURTHER INFORMATION CONTACT**, so that appropriate arrangements can be made.

Procedures for providing public input: Interested members of the public may submit relevant written or oral comments for the HSRB to consider during the advisory process. Additional information concerning submission of relevant written or oral comments is provided in Section I, “Public Meeting” under subsection D. “How May I Participate in this Meeting?” of this notice.

Web cast: This meeting may be webcast. Please refer to the HSRB Web site, <http://www.epa.gov/hsrb/>

for information on how to access the webcast. Please note that the webcast is a supplementary public process provided only for convenience. If difficulties arise resulting in webcasting outages, the meeting will continue as planned.

I. Public Meeting

A. Does this action apply to me?

This action is directed to the public in general. This Notice may, however, be of particular interest to persons who conduct or assess human studies, especially studies on substances regulated by the EPA, or to persons who are, or may be required to conduct testing of chemical substances under the Federal Food, Drug, and Cosmetic Act or the Federal Insecticide, Fungicide, and Rodenticide Act. This notice might also be of special interest to participants of studies involving human subjects, or representatives of study participants or experts on community engagement. The Agency has not attempted to describe all
