Proposed Priority

This notice contains one proposed priority.

Distinguished Residential Disability and Rehabilitation Policy Fellowship (Also Known As the Mary E. Switzer Research Fellowships)

Background

NIDRR's mission is to support the generation of new knowledge and promote its effective use to improve the abilities of individuals with disabilities to participate in community activities of their choice and to enhance society's capacity to provide full opportunities and accommodations for these individuals. NIDRR research focuses on improving the lives of individuals with disabilities in three major life domains: (1) Employment, (2) Community Living and Participation, and (3) Health and Function as identified in NIDRR's Long-Range Plan published in the **Federal Register** on April 4, 2013 (78 FR 20299). Public policy research, including research on how public policy impacts the outcomes of individuals with disabilities, is an important mechanism for improving outcomes for individuals with disabilities in NIDRR's three research domains.

Through this proposed priority, NIDRR seeks to provide disability and rehabilitation researchers the opportunity to enhance their understanding of the policy-making process and the effects of public policy on the outcomes of individuals with disabilities, to enhance their capacity to conduct and disseminate research that is relevant to policy development, and to enhance their ability to communicate with policymakers and advocates who might use this research. For example, the enhanced capacity of researchers to conduct relevant disability policy research is needed to explore how specific Federal legislation and programs affect outcomes for individuals with disabilities (e.g., the Americans With Disabilities Act, the

Rehabilitation Act, Social Security Disability Insurance). Enhanced policy knowledge will also allow disability and rehabilitation researchers to conduct systematic research on: Effective means of policy implementation; barriers to the integration of research in disability-related policy development and implementation; the methods for effective engagement of policymakers and other stakeholders in policy development, evaluation, and reform; specific strategies for effective dissemination of information about public policies; and the costs and outcomes of specific policies.

As a residential fellow, an individual will be required to carry out the fellowship activities, as provided in 34 CFR Part 356, in an agency or office within the Executive or Legislative branches of the Federal government, in the Washington, DC metropolitan area.

Proposed Priority

The Assistant Secretary for Special Education and Rehabilitative Services proposes a new priority for a Distinguished Residential Disability and Rehabilitation Policy Fellowship as part of NIDRR's Research Fellowship Program (also known as the Mary E. Switzer Research Fellowships). The goals of this proposed priority are: (1) To provide experienced disability and rehabilitation researchers with opportunities to enhance their knowledge and understanding of the public policy-making process and the effects of public policy on the outcomes of individuals with disabilities; (2) to enhance the capacity of disability and rehabilitation researchers to conduct and disseminate disability policy relevant research; (3) to increase the integration and use of research findings in shaping disability-related policy; and (4) to increase awareness of disability-related issues in public policy discussions, formulations, and reviews.

Consistent with the goals of this program, an applicant for a Distinguished Residential Disability and Rehabilitation Policy Fellowship must include:

(a) An Eligibility Statement that demonstrates that you meet the eligibility requirements in 34 CFR Part 356.2(c)(1), including relevant publications and prior research experience; and that provides sufficient information in order to evaluate your qualifications consistent with 34 CFR Part 356.30(a).

(b) A plan for how you will fulfill the full-time equivalent requirement for a Distinguished Residential Disability and Rehabilitation Policy Fellowship and the requirement to work a minimum of

50 percent of the time in an agency or office within the Executive or Legislative branches of the Federal government, in the Washington DC metropolitan area.

Note: As described in 34 CFR 356.41, fellows will work full time on authorized fellowship activities. The application package for this priority provides a thorough description of how NIDRR defines and administers the full-time equivalent requirement for this program, as well as the 50 percent residential requirement.

(c) A letter of support from a potential mentor at an agency or office within the Executive or Legislative branches of the Federal Government where your fellowship will be based. The letter of support from the potential mentor should indicate the mentor's capacity and willingness to facilitate your fellowship placement should you be awarded the Distinguished Residential Disability and Rehabilitation Policy Fellowship.

(d) An assurance that you will commit to spending at least 50 percent of the time during the period of the Fellowship, at an agency or office within the Executive or Legislative branches of the Federal government in the Washington DC metropolitan area, receiving orientation, conducting research, and providing expertise related to disability and rehabilitation research.

(e) A description of a proposed Distinguished Residential Disability and Rehabilitation Policy Fellowship research project that includes the following:

(1) A brief history or literature review of the disability issue, as appropriate; identification of the relevant recent legislative, regulatory, or administrative actions and the policy options related to this topic; and a rationale for the importance of the topic to improving the well-being of individuals with disabilities in one or more of NIDRR's primary outcome domains: Community Living and Participation, Employment, and Health and Function.

(2) Specific objectives and research questions or hypotheses that will guide the project, the methods you will use to conduct the research, and the proposed timeline for implementing the project.

(3) A plan for how the results of the project will be disseminated and used to influence policy.

Note: Fellows funded under this program are responsible for ensuring that their conduct does not violate Federal anti-lobbying requirements (see <http://www.gpo.gov/fdsys/granule/USCODE-2011-title18/USCODE-2011-title18-partI-chap93-sec1913>) during the period of their fellowship.

Note: The costs associated with carrying out this residential policy practicum are intended to be covered, in full or in part, by the Distinguished Residential Disability and Rehabilitation Policy Fellowship Award; however, the fellow is responsible for paying for any costs that exceed the amount of the award.

Types of Priorities

When inviting applications for a competition using one or more priorities, we designate the type of each priority as absolute, competitive preference, or invitational through a notice in the **Federal Register**. The effect of each type of priority follows:

Absolute priority: Under an absolute priority, we consider only applications that meet the priority (34 CFR 75.105(c)(3)).

Competitive preference priority: Under a competitive preference priority, we give competitive preference to an application by (1) awarding additional points, depending on the extent to which the application meets the priority (34 CFR 75.105(c)(2)(i)); or (2) selecting an application that meets the priority over an application of comparable merit that does not meet the priority (34 CFR 75.105(c)(2)(ii)).

Invitational priority: Under an invitational priority, we are particularly interested in applications that meet the priority. However, we do not give an application that meets the priority a preference over other applications (34 CFR 75.105(c)(1)).

Final Priority

We will announce the final priority in a notice in the **Federal Register**. We will determine the final priority after considering responses to this notice and other information available to the Department. This notice does not preclude us from proposing additional priorities, requirements, definitions, or selection criteria, subject to meeting applicable rulemaking requirements.

Note: This notice does *not* solicit applications. In any year in which we choose to use this priority, we invite applications through a notice in the **Federal Register**.

Executive Orders 12866 and 13563

Regulatory Impact Analysis

Under Executive Order 12866, the Secretary must determine whether this regulatory action is "significant" and, therefore, subject to the requirements of the Executive order and subject to review by the Office of Management and Budget (OMB). Section 3(f) of Executive Order 12866 defines a "significant regulatory action" as an action likely to result in a rule that may—

(1) Have an annual effect on the economy of \$100 million or more, or adversely affect a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities in a material way (also referred to as an "economically significant" rule);

(2) Create serious inconsistency or otherwise interfere with an action taken or planned by another agency;

(3) Materially alter the budgetary impacts of entitlement grants, user fees, or loan programs or the rights and obligations of recipients thereof; or

(4) Raise novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles stated in the Executive order.

This proposed regulatory action is not a significant regulatory action subject to review by OMB under section 3(f) of Executive Order 12866.

We have also reviewed this regulatory action under Executive Order 13563, which supplements and explicitly reaffirms the principles, structures, and definitions governing regulatory review established in Executive Order 12866. To the extent permitted by law, Executive Order 13563 requires that an agency—

(1) Propose or adopt regulations only upon a reasoned determination that their benefits justify their costs (recognizing that some benefits and costs are difficult to quantify);

(2) Tailor its regulations to impose the least burden on society, consistent with obtaining regulatory objectives and taking into account—among other things and to the extent practicable—the costs of cumulative regulations;

(3) In choosing among alternative regulatory approaches, select those approaches that maximize net benefits (including potential economic, environmental, public health and safety, and other advantages; distributive impacts; and equity);

(4) To the extent feasible, specify performance objectives, rather than the behavior or manner of compliance a regulated entity must adopt; and

(5) Identify and assess available alternatives to direct regulation, including economic incentives—such as user fees or marketable permits—to encourage the desired behavior, or provide information that enables the public to make choices.

Executive Order 13563 also requires an agency "to use the best available techniques to quantify anticipated present and future benefits and costs as accurately as possible." The Office of Information and Regulatory Affairs of OMB has emphasized that these

techniques may include “identifying changing future compliance costs that might result from technological innovation or anticipated behavioral changes.”

We are issuing this proposed priority only upon a reasoned determination that its benefits would justify its costs. In choosing among alternative regulatory approaches, we selected those approaches that would maximize net benefits. Based on the analysis that follows, the Department believes that this proposed priority is consistent with the principles in Executive Order 13563.

We also have determined that this regulatory action would not unduly interfere with State, local, and tribal governments in the exercise of their governmental functions.

In accordance with both Executive orders, the Department has assessed the potential costs and benefits, both quantitative and qualitative, of this regulatory action. The potential costs are those resulting from statutory requirements and those we have determined as necessary for administering the Department’s programs and activities.

The benefits of the Research Fellowships Program have been well established over the years. Projects similar to the Research Fellowships Program have been completed successfully, and the proposed priority will generate new capacity in the area of rehabilitation and disability policy research.

Intergovernmental Review: This program is not subject to Executive Order 12372 and the regulations in 34 CFR part 79.
