I. Issues on Which DOE Seeks Comment

In order to gather public input on the physical characterization of grid-connected commercial and residential buildings equipment and appliances, DOE is holding a public meeting on July 11, 2014 at DOE in Washington, DC. The agenda is expected to include the following discussion items:

- Presentation of a draft “straw man” framework with test protocols for the physical characterization of grid-connected buildings equipment;

- Services (use cases) grid-connected buildings equipment can provide;

- Candidate metrics to characterize smart and grid-connected buildings equipment;

- Applying the framework at the Energy Systems Integration Facility at NREL.

- Other topics related to smart and grid-connected equipment that DOE should consider;

Grid connected water heaters are subject to an ongoing rulemaking proceeding and will not be discussed at the meeting.

Note that agenda items may change without notice. The final agenda will be posted on the DOE Web site at: <http://energy.gov/eere/buildings/buildings-grid-integration>.

DOE considers public participation very important in gathering information. Interactions with and among members of the public provide a balanced discussion of the issues and assist DOE in making objective determinations. DOE requests comment on a draft framework for the physical characterization of grid-connected commercial and residential buildings equipment and appliances at the public meeting, or submitted in writing before or after the meeting, but no later than Friday August 8, 2014. See the following section II for additional information on public participation.

General Information

EPA is amending the PeoplePlus system of records (EPA-1) to reflect the transition of (1) human resources records from PeoplePlus and (2) payroll records from the Defense Finance and Accounting Services (DFAS) to the

Department of the Interior's (DOI) Interior Business Center's (IBC) Federal Personnel and Payroll System (FPPS). The IBC will process personnel actions and payroll for EPA employees through FPPS, including computing each employee's gross pay, subtracting deductions and benefits and forwarding net payments to banks. EPA will then perform labor distribution and enter the information into its central accounting system. The records in FPPS have various uses by Agency personnel offices, including screening qualifications of employees; determining status, eligibility, and employee's rights and benefits under pertinent laws and regulations governing federal employment; computing length of service; and providing other information needed to support personnel services. The electronic records and their automated or microform equivalents may also be used to locate individuals for personnel research.

Modernizing and consolidating payroll processing services is part of an overall e-government effort led by the Office of Personnel Management (OPM) to consolidate executive branch payroll providers, develop shared service centers, simplify and standardize civilian payroll procedures across the Federal government. This action gives notice that the human resources and payroll processing functions are being transferred to the IBC.

Dated: May 14, 2014.

Renee Wynn,

Acting Assistant Administrator and Acting Chief Information Officer.
