

individuals.”<sup>14</sup> How significant are such risks? How could they be addressed in the context of the Consumer Privacy Bill of Rights? Should they be? Should potential privacy legislation impose similar obligations with respect to uses of data that are not currently regulated?

9. How significant are the privacy risks posed by unindexed data backups and other “latent information about individuals?”<sup>15</sup> Do standard methods exist for determining whether data is sufficiently obfuscated and/or unavailable as to be irretrievable as a practical matter?

10. The PCAST Report notes that “data fusion occurs when data from different sources are brought into contact and new, often unexpected, phenomena emerge;” this process “frequently results in the identification of individual people,” even when the underlying data sources were not linked to individuals’ identities.<sup>16</sup> How significant are the privacy risks associated with this? How should entities performing big data analysis implement individuals’ requests to delete personal data when previously unassociated information becomes associated with an individual at a subsequent date? Do existing systems enable entities to log and act on deletion requests on an ongoing basis?

11. As the PCAST Report explains, “it is increasingly easy to defeat [de-identification of personal data] by the very techniques that are being developed for many legitimate applications of big data.”<sup>17</sup> However, de-identification may remain useful as an added safeguard in some contexts, particularly when employed in combination with policy safeguards.<sup>18</sup> How significant are the privacy risks posed by re-identification of de-identified data? How can de-identification be used to mitigate privacy risks in light of the analytical capabilities of big data? Can particular policy safeguards bolster the effectiveness of de-identification? Does the relative efficacy of de-identification depend on whether it is applied to public or private data sets? Can differential privacy mitigate risks in some cases? What steps could the government or private sector take to expand the capabilities and practical application of these techniques?

12. The Big Data Report concludes that “big data technologies can cause

societal harms beyond damages to privacy, such as discrimination against individuals and groups” and warns “big data could enable new forms of discrimination and predatory practices.”<sup>19</sup> The Report states that “it is the responsibility of government to ensure that transformative technologies are used fairly” and urges agencies to determine “how to protect citizens from new forms of discrimination that may be enabled by big data technologies.”<sup>20</sup> Should the Consumer Privacy Bill of Rights address the risk of discriminatory effects resulting from automated decision processes using personal data, and if so, how? How could consumer privacy legislation (either alone or in combination with anti-discrimination laws) make a useful contribution to addressing this concern? Should big data analytics be accompanied by assessments of the potential discriminatory impacts on protected classes?

#### Possible Approaches to Big Data Suggested by the Reports and the Big Data Workshops

13. Can accountability mechanisms play a useful role in promoting socially beneficial uses of big data while safeguarding privacy? Should ethics boards, privacy advisory committees, consumer advisory boards, or Institutional Review Boards (IRBs) be consulted when practical limits frustrate transparency and individuals’ control over their personal information? How could such entities be structured? How might they be useful in the commercial context? Can privacy impact assessments and third-party audits complement the work of such entities? What kinds of parameters would be valuable for different kinds of big data analysts to consider, and what kinds of incentives might be most effective in promoting their consideration?

14. Would a system using “privacy preference profiles,” as discussed in Section 4.5.1 of the PCAST Report, mitigate privacy risks regarding big data analysis?<sup>21</sup>

15. Related to the concept of “privacy preference profiles,” some have urged that privacy preferences could be attached to and travel with personal data (in the form of metadata), thereby enabling recipients of data to know how to handle the data.<sup>22</sup> Could such an approach mitigate privacy risks regarding big data analysis?

16. Would the development of a framework for privacy risk management be an effective mechanism for addressing challenges with big data?<sup>23</sup>

17. Can emerging privacy enhancing technologies mitigate privacy risks to individuals while preserving the benefits of robust aggregate data sets?

18. How can the approaches and issues addressed in Questions 14–17 be accommodated within the Consumer Privacy Bill of Rights?

19. What other approaches to big data could be considered to promote privacy?

20. What other questions should we be asking about big data and consumer privacy?

## CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC-2011-0014]

### Submission for OMB Review; Comment Request— Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

**AGENCY:** Consumer Product Safety Commission.

**ACTION:** Notice.

**SUMMARY:** As required by the Paperwork Reduction Act of 1995 (44 U.S.C.

Chapter 35), the Consumer Product

Safety Commission (CPSC or

Commission) announces that the CPSC

has submitted to the Office of

Management and Budget (OMB) a

request for extension of approval of a

collection of information relating to the

generic clearance for the collection of

qualitative feedback on agency service

delivery (OMB No. 3041-0148). In the

**Federal Register** of March 13, 2014 (79

FR 14237), the CPSC published a notice

announcing the agency's intent to seek

an extension of approval of this

collection of information. CPSC

received no comments in response to

this notice. Therefore, by publication of

this notice, the Commission announces

that CPSC has submitted to the OMB a

request for extension of approval of that

collection of information without

change.

**DATES:** Written comments on this

request for extension of approval of

information collection requirements

should be submitted by July 7, 2014.

**ADDRESSES:** Submit comments about

this request by email: [OIRA\\_submission@omb.eop.gov](mailto:OIRA_submission@omb.eop.gov) or fax: 202-

395-6881. Comments by mail should be

sent to the Office of Information and

Regulatory Affairs, Attn: OMB Desk

Officer for the CPSC, Office of

Management and Budget, Room 10235,

725 17th Street NW., Washington, DC

20503. In addition, written comments

that are sent to OMB also should be

submitted electronically at <http://www.regulations.gov>, under Docket No.

CPSC-2011-0014.

**FOR FURTHER INFORMATION CONTACT:** For

further information contact: Robert H.

Squibb, Consumer Product Safety

Commission, 4330 East West Highway,

Bethesda, MD 20814; (301) 504-7815, or

by email to: [rsquibb@cpsc.gov](mailto:rsquibb@cpsc.gov).

**SUPPLEMENTARY INFORMATION:** CPSC

seeks to renew the following collection

of information:

*Title:* Generic Clearance for the

Collection of Qualitative Feedback on

Agency Service Delivery.

*Abstract:* The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, to improve service delivery. Below we provide CPSC's projected average estimates for activities including qualitative surveys, focus groups, customer satisfaction surveys, and usability tests.

*Current Actions:* Renewal of collection of information.

*Type of Review:* Renewal.

*Affected Public:* Individuals and Households, Businesses and Organizations, State, Local or Tribal Government.

*Average Expected Annual Number of Activities:* Eight activities, including qualitative surveys, focus groups, customer satisfaction surveys, and usability tests.

*Annual Number of Respondents:* 1,600.

*Annual Responses:* 1,600.

*Frequency of Response:* Once per request.

*Average Minutes per Response:* 45 minutes per response.

*Annual Burden Hours:* 1,200.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

## DEPARTMENT OF DEFENSE

### Office of the Secretary

[Docket ID DoD-2013-OS-0086]

### Proposed Collection; Comment Request

**AGENCY:** Office of the Inspector General, DoD.

**ACTION:** Notice.

**SUMMARY:** In compliance with Section 3506(c)(2)(A) of the *Paperwork Reduction Act of 1995*, the Office of the Inspector General announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed information collection; (c) ways to
