AGENCY: Office of the Assistant Secretary for Financial Markets, Treasury.

ACTION: Proposed rule.

SUMMARY: The Department of the Treasury (Treasury) is issuing this notice of proposed rulemaking to solicit public comment on proposed amendments to Treasury’s rules for reporting large positions in certain Treasury securities. The large position reporting rules are issued under the Government Securities Act (GSA) for the purposes of monitoring the impact in the Treasury securities market of concentrations of positions in Treasury securities and otherwise assisting the Securities and Exchange Commission (SEC) in enforcing the GSA. In addition, the large position reports provide Treasury with information to better understand supply and demand dynamics in certain Treasury securities. The proposed amendments are designed to improve the information available to Treasury and simplify the reporting process for many entities subject to the large position reporting rules.
