At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: The National Listing of Fish Advisories (NLFA) database contains information on the number of advisories issued by each state, territory, or tribe annually. The advisory information collected identifies the waterbody under advisory, the fish or shellfish species and size ranges included in the advisory, the chemical contaminants and residue levels causing the advisory to be issued, the waterbody type (river, lake, estuary, coastal waters), and the target populations to whom the advisory is directed. This information is collected under the authority of section 104 of the Clean Water Act, which provides for the collection of information to be used to protect human health and the environment. The results of the survey are shared with states, territories, tribes, other federal agencies, and the general public through the NLFA database and the distribution of biennial fish advisory fact sheets. The responses to the survey are voluntary and the information requested is part of the state public record associated with the advisories. No confidential business information is requested.

Form Numbers: None.

Respondents/Affected Entities: Entities potentially affected by this action are Administrators of Public Health and Environmental Quality Programs in state and tribal governments (NAICS 92312/SIC 9431 and NAICS 92411/SIC 9511).

Respondent's Obligation To Respond: Voluntary (Clean Water Act, Section 104).

Estimated Number of Respondents: 92 total.

Frequency of Response: Annual.
