**SUPPLEMENTARY INFORMATION:** FEMA publishes proposed determinations of BFEs and modified BFEs for communities participating in the National Flood Insurance Program (NFIP), in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are minimum requirements. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and also are used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in those buildings.

#### Correction

In the proposed rule published at 75 FR 62062-62063, in the October 7, 2010, issue of the **Federal Register**, FEMA published a table under the authority of 44 CFR 67.4. The table, entitled "Clay County, Arkansas, and Incorporated Areas", addressed several flooding sources including Cypress Creek Ditch and Victory Lake. The proposed rule listed modified BFEs for Cypress Creek Ditch and Victory Lake between specific upstream and downstream locations listed in the table. FEMA is no longer proposing these flood elevation determination changes along Cypress Creek Ditch and Victory Lake as identified in the above-referenced rulemaking publication.

#### Proposed Flood Elevation Determinations for Warren County, Pennsylvania (All Jurisdictions)

**AGENCY:** Federal Emergency Management Agency, DHS.

**ACTION:** Proposed rule; withdrawal.

**SUMMARY:** The Federal Emergency Management Agency (FEMA) is withdrawing its proposed rule concerning proposed flood elevation determinations for Warren County, Pennsylvania (All Jurisdictions).  
**DATES:** This withdrawal is effective on June 13, 2014.

**ADDRESSES:** You may submit comments, identified by Docket No. FEMA-B-1147, to Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646-4064, or (email) [Luis.Rodriguez3@fema.dhs.gov](mailto:Luis.Rodriguez3@fema.dhs.gov).

#### Fisheries of the Northeastern United States; Atlantic Herring Fishery; Framework Adjustment 3

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Proposed rule, request for comments.

**SUMMARY:** Framework Adjustment 3 to the Atlantic Herring Fishery Management Plan would establish a process for setting river herring (alewife and blueback) and shad (American and hickory) catch caps for the herring fishery. In addition, this action would set these catch caps for the 2014 and 2015 fishing years. This action is consistent with Herring Amendment 5, which addresses river herring catch and allows for river herring and shad catch caps to be implemented through a framework. This action would allow the Council to set river herring and shad catch caps and associated measures in future years through specifications or frameworks, whichever is appropriate. Catch of river herring and shad includes both bycatch (discards) and incidental catch that is retained.

**DATES:** Public comments must be received by July 14, 2014.

**ADDRESSES:** The New England Fishery Management Council developed an environmental assessment (EA) for this action that describes the proposed action and other considered alternatives and provides a thorough analysis of the impacts of the proposed measures and alternatives.
