**SUPPLEMENTARY INFORMATION:** This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

**A. Overview of Information Collection**

*Title of Information Collection:* Admission to, and Occupancy of Public Housing.

*OMB Approval Number:* 2577–0220.

*Type of Request:* Extension.

*Form Number:* Not Applicable.

*Description of the need for the information and proposed use:* Statute requires HUD to ensure the low-income character of public housing projects and to assure that sound management practices will be followed in the operation of the project. Public Housing Agencies (PHAs) enter into an Annual Contribution Contract (ACC) with HUD to assist low-income tenants. HUD regulations, Part 960, provide policies and procedures for PHAs to administer the low-income housing program for admission and occupancy. Statutory and regulatory authority grants PHAs flexibility to structure admission and occupancy policies. PHAs must develop and keep on file the admissions and continued occupancy policies to meet local preferences. PHA compliance will support the statute; and, HUD can ensure that the low-income character of the project and sound management practices will be followed.

Number of respondents (PHAs)	Responses annually	**Hours per response	Total annual burden hours	Cost per hour	Total annual cost

**SUPPLEMENTARY INFORMATION:**

**Background**

Through the Lacey Act (18 U.S.C. 42), the U.S. Fish and Wildlife Service (Service) regulates the importation and interstate transport of certain aquatic invasive species that have been determined to be injurious. The Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (16 U.S.C. 4701 *et seq.*) established the Aquatic Nuisance Species Task Force (ANSTF), an intergovernmental organization co-chaired by the Service and the National Oceanic and Atmospheric Administration and dedicated to preventing and controlling the spread of aquatic nuisance species.

**Development of the Guidelines**

In 2011 the ANSTF established a committee to develop guidelines that would help to prevent the spread of aquatic invasive species through the disposal of unwanted live educational specimens (animals, plants, and microorganisms) into local waters and municipal water systems. The goal of the committee was to develop clear, easy-to-use standardized national guidelines that are easily communicated to educators and students and can be incorporated into education and outreach media.
