I. Funding Opportunity Description

A. Purpose of the Program

The purpose of this program is to provide financial incentives to biorefineries in existence on or before June 18, 2008, the date of the enactment of the Food, Conservation, and Energy Act of 2008 (the 2008 Farm Bill) (Pub. L. 110-246), to replace the use of fossil fuels used to produce heat or power at their facilities by installing new systems that use renewable biomass, or to produce new energy from renewable biomass.

B. Statutory Authority

This program is authorized under 7 U.S.C. 8104.

C. Definition of Terms

The definitions applicable to this Notice are published at 7 CFR 4288.2.

II. Award Information

A. Available Funds

The Agency is authorizing up to \$12 million for this program in FY 2014.

B. Number of Payments

The number of payments will depend on the number of participating biorefineries.

C. Amount of Payments

The Agency will determine the amount of payments to be made to a biorefinery in accordance with its regulations at 7 CFR part 4288 subpart A which take into consideration the percentage reduction in fossil fuel used by the biorefinery (including the quantity of fossil fuels a renewable biomass system is replacing) and the cost and cost-effectiveness of the renewable biomass system.

D. Payment Limitations

There is no minimum payment amount that an individual biorefinery can receive. The maximum amount an individual biorefinery can receive under this Notice is 50 percent of total eligible project costs up to a maximum of \$3 million.

E. Project Costs

Eligible project costs will be only for project related construction costs for repowering improvements associated with the equipment, installation, engineering, design, site plans, associated professional fees, permits and financing fees. Any project costs incurred by the applicant prior to application for payment assistance under this Notice will be ineligible for payment assistance.

F. Type of Instrument

Payment agreement.

III. Eligibility Information

A. Eligible Applicants

Program requirements are found in 7 CFR 4288.10. Among other things, to be eligible for this program, an applicant must be a biorefinery that has been in existence on or before June 18, 2008, and will utilize renewable biomass to replace fossil fuel for repowering the biorefinery.

B. Ineligible Projects

A project is not eligible under this Notice if it is using feedstocks for repowering that are feed grain commodities that received benefits under Title I of the Food, Conservation, and Energy Act of 2008. Projects that do not score minimum points for cost-effectiveness and percentage of reduction of fossil fuel used will be deemed ineligible.

IV. Multiple Submissions

Corporations and entities with more than one biorefinery can submit an

application for only one of their biorefineries. However, if a corporation or entity has multiple biorefineries located at the same location, the entity may submit an application that covers such biorefineries provided the heat and power used in the multiple biorefineries are centrally produced.

V. Scoring Advice

A. Cost Effectiveness

To be eligible and meet the minimum scoring criteria, the project must have a simple payback period of no more than 10 years (i.e., must be awarded at least five points for cost-effectiveness under 7 CFR 4288.21(b)(1)).

B. Percentage of Reduction of Fossil Fuel Used

To be eligible and meet the minimum scoring criteria, the applicant must demonstrate that the repowering project has an anticipated annual reduction in fossil fuel use of at least 40 percent (i.e., the application must be awarded at least five points for percentage of reduction of fossil fuel used under 7 CFR 4288.21(b)(2)).

VI. Project Financing

The applicant must demonstrate that it has sufficient funds or has obtained commitments for sufficient funds to complete the repowering project taking into account the amount of the payment request in the application.

VII. Fiscal Year 2014 Application and Submission Information

A. To Request Applications

Application forms are available from the USDA Rural Development State Office, State Energy Coordinator, and the Agency Web site found at <http://forms.sc.egov.usda.gov>. Follow instructions on the Agency Web site for obtaining the application and forms.

B. Content and Form of Submission

Applicants must submit a signed original and one copy of an application containing all the information specified in 7 CFR 4288.20(b) and (c).

7 CFR 4288.13(b) and (c) and in 7 CFR 4288.24.

VIII. Application Review and Selection Information

The Agency will evaluate projects based on the cost, cost-effectiveness, and capacity of projects to reduce fossil fuels used.

A. Review

The Agency will review applications submitted under this Notice in accordance with 7 CFR 4288.21(a).

B. Scoring

The Agency will score applications submitted under this Notice in accordance with 7 CFR 4288.21(b).

C. Ranking and Selecting Applications

All scored applications will be ranked by the Agency as soon after September 15, 2014 as possible. The Agency will consider the score an application has received compared to the scores of other applications, with higher scoring applications receiving first consideration for payments. Using the application scoring criteria point values specified in 7 CFR 4288.21, the Agency will select applications for payments.

D. Availability of Funds

As applications are funded, if insufficient funds remain to pay the next highest scoring application, the Agency may elect to pay a lower scoring application. Before this occurs, the Agency will provide the applicant of the higher scoring application the opportunity to reduce the amount of its payment request to the amount of funds available. If the applicant agrees to lower its payment request, it must certify that the purposes of the project can be met, and the Agency must determine the project is feasible at the lower amount.

IX. Administration Information
